JOHN M. FOLKS
State Superintendent
LLOYD GRAHAM
Deputy Superintendent

The Honorable Henry Bellmon
Governor of Oklahoma

Members of the Oklahoma Legislature

The key to economic prosperity is found in the partnership between educators and the leaders of our government. It is through this commitment to excellence that our state will overcome many of the economic problems it faces today. The report submitted in this document is evidence that such a partnership is underway in Oklahoma.

The Executive and Legislative branches of our government, as well as those of us responsible for the administration of the common school education programs, are dedicated to a continued commitment to excellence for Oklahoma's public schools. We have established a pattern for this educational excellence that has included the efforts of many citizens, local school districts, business organizations, service agencies and institutions of higher education. This pattern will continue to grow as these partnerships thrive.

Many educational improvements have been implemented that affect students, teachers, administrators, and, ultimately, the future well-being of our state. As you read and reflect on this report, please be assured that we will continue our commitment to educational excellence...a commitment that we believe provides Oklahoma with the key to economic prosperity.

Respectfully submitted,

John M. Folks

John M. Folks
State Superintendent
of Public Instruction

State Department of Education
FY-89 Budget Request

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	Appropriated state funds	Total
A. FY-89 BUDGET REQUEST: Program areas are organized by priority: **1. Financial support of schools** FY-88 Budget Work Program $730,192,597	$864,618,663	

The State Board of Education is requesting an increase in the amount of $134,426,066 for the financial support of schools. These funds would provide:

$ 30,000,000	New State Aid Formula funds
84,130,985	State minimum salary schedule increase for teachers
18,618,541	Support personnel salary increase
81,000	From arts-in-education
1,568,540	From ICTE programs
27,000	From early childhood education
$134,426,066	

OPERATIONAL FUNDS

These funds will provide additional operational dollars for school districts to help meet the new state minimum salary schedule for teachers and provide support salary increases. Local boards of education will not be mandated to give teachers and support personnel salary increases, except to meet the new state minimum salary schedule for teachers.

CLASS SIZE

In addition, the State Board of Education recommends that class size for grades one, two and three be reduced from 24 to 22 students assigned to a class or teacher. The grade weights for these grades would increase as follows:

	From	To
Grades 1 & 2	1.317	1.351
Grade 3	1.017	1.051

As a part of this recommendation to reduce class size for grades one, two and three, there are two conditions which must be met in order to continue the Board's support of reducing class size.

1) $30,000,000 must be added to the State Aid Formula as per this request.
2) Legislation is requested to provide a constitutional change, to be put to the vote of the people, to allow school districts when approved by voters of the district to:

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	Appropriated state funds	Total

a. Vote an additional 10 mill General Fund Levy; and to
b. Vote an additional 5 mill Building Fund Levy.

With these provisions, school districts would have the opportunity, with additional operational funds and building funds, to staff and house the overflow of students as a result of class size reduction for grades one, two and three.

TRANSPORTATION

It is also recommended that the Transportation Factor within the State Aid Formula be increased from $1.39 to $1.80 to assist school districts which transport children with the cost of such transportation.

Currently, the funding to school districts through the formula in 1987-88 is $21,435,714 for hauling 297,377 students. The increase would provide a projected amount through the formula of $27,733,930.

WEIGHT FOR KINDERGARTEN

Currently, the pupil grade weight in the formula provides for the attendance of a half-day student at 100%, as though the student were in attendance for a full day. The weight for a kindergarten student is presently at 1.3 in Foundation and Salary Incentive Aid.

The State Board of Education, in recognizing the educational needs of kindergarten students, recommends that the public schools offer a full day of kindergarten for the children in the district. Beginning with the 1988-89 school year, those school districts which offer a full-day kindergarten program will be eligible to receive an increase in the weight in the State Aid Formula from 1.3 to 2.00 in the 1989-90 school year.

Full-day kindergarten classes will not be mandated; however, for those schools which offer full-day programs, an additional weight in the formula will provide a financial incentive to assist in the cost of expanding current half-day programs to full-day programs, as well as to help those districts presently offering full-day programs.

WEIGHT FOR ACADEMIC SCHOLARS

An Academic Scholar weight will be established based on the number of students who have completed 22 units for graduation which consists of at least:

English	4 units	(grammar, composition, literature)
Mathematics	3 units	(algebra I, algebra II, geometry, trigonometry, analysis, calculus)
Science	3 units	(biology I, biology II, chemistry I, chemistry II, botany, zoology, physics, physiology)
Social Studies	3 units	(history, government, sociology, psychology, economics, anthropology, geography)

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
School districts will submit a certified count of the students who have completed these requirements beginning with the school year 1988-89. The student count will be used in the calculation of the 1989-90 State Aid Formula. STATE MINIMUM SALARY SCHEDULE FOR TEACHERS The State Board of Education requests that $2,000 be added to each degree and year of experience level for FY-89. School districts are mandated to meet the new state minimum schedule for teachers' salaries.		

PROPOSED MINIMUM SALARY SCHEDULE FOR 1988-89

Years of experience	Bachelor's degree	Proposed	Master's degree	Proposed	Doctor's degree	Proposed
0	$15,060 + 2,000 =	$17,060	$16,166 + 2,000 =	$18,166	$17,272 + 2,000 =	$19,272
1	16,221 + 2,000 =	18,221	17,327 + 2,000 =	19,327	18,433 + 2,000 =	20,433
2	16,553 + 2,000 =	18,553	17,659 + 2,000 =	19,659	18,765 + 2,000 =	20,765
3	16,774 + 2,000 =	18,774	17,880 + 2,000 =	19,880	18,986 + 2,000 =	20,986
4	17,106 + 2,000 =	19,106	18,212 + 2,000 =	20,212	19,318 + 2,000 =	21,318
5	17,438 + 2,000 =	19,438	18,544 + 2,000 =	20,544	19,650 + 2,000 =	21,650
6	17,659 + 2,000 =	19,659	18,765 + 2,000 =	20,765	19,871 + 2,000 =	21,871
7	17,991 + 2,000 =	19,991	19,097 + 2,000 =	21,097	20,203 + 2,000 =	22,203
8	18,212 + 2,000 =	20,212	19,318 + 2,000 =	21,318	20,535 + 2,000 =	22,535
9	18,544 + 2,000 =	20,544	19,650 + 2,000 =	21,650	20,756 + 2,000 =	22,756
10	18,765 + 2,000 =	20,765	19,871 + 2,000 =	21,871	20,977 + 2,000 =	22,977
11	19,097 + 2,000 =	21,097	20,203 + 2,000 =	22,203	21,309 + 2,000 =	23,309
12	19,318 + 2,000 =	21,318	20,424 + 2,000 =	22,424	21,530 + 2,000 =	23,530
13	19,650 + 2,000 =	21,650	20,756 + 2,000 =	22,756	21,862 + 2,000 =	23,862
14	19,761 + 2,000 =	21,761	20,867 + 2,000 =	22,867	21,973 + 2,000 =	23,973
15	20,092 + 2,000 =	22,092	21,198 + 2,000 =	23,198	22,304 + 2,000 =	24,304

STATE AID FORMULA FACTORS

	FY-88 Actual	FY-89 Request
Foundation aid	$945	$1,026
Transportation factor	$ 1.39	$ 1.80
Salary incentive aid	$ 38.99	$ 44.34
Cost of supplement	$ 26.6 mil.	$ 9.4 mil.
Basic formula (districts with supplement)	204	108
Basic formula (districts without supplement)	407	503

State Department of Education FY-89 Budget Request (Continued)

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
2. Purchase of textbooks For FY-89, the request is made for an additional $3,796,966 over the FY-88 level of $10,278,434. This amount would provide a per pupil amount of approximately $25. The level for FY-88 was $18.20. The total amount requested is $14,075,400.	$14,075,400	
3. School lunch matching For FY-89, the request is made for $2,181,934 which is $70,437 less than the FY-88 amount of $2,252,371. The amount is less as a result of a change in the calculation factor and commodity distribution cost.	$ 2,181,934	
4. Supplementary materials and equipment for library resources (new program) For FY-89, the request is made to provide a minimum of $500 per district for the purpose of improving the instructional media resources program, except to districts: a) whose total revenue per weighted child is twice the state average revenue per weighted child or greater. These districts will not receive monies through this line item; or to districts b) whose total revenue per weighted child is one and one-half times the state average revenue per weighted child. The monies for these districts will be reduced by 25%. Applications will not be required to receive these monies. The total amount requested is $2,500,000 for this new line item.	$ 2,500,000	
5. Mid-term adjustment for attendance For FY-89, the request of $12,000,000 is made in order to fund the growth in average daily attendance during the first semester of the 1988-89 school year.	$12,000,000	
6. County superintendent's salary increase For FY-89, the request is made for an additional $92,249 above the FY-88 level of $101,078 if the new State Minimum Teacher Salary Schedule proposed in this request is adopted. The amount requested is $193,327 to support not only those county superintendents with three or more dependent schools who qualify, but all county superintendents who qualify for state support to bring salaries to the state minimum.	$ 193,327	

State Department of Education FY-89 Budget Request (Continued)

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
7. Staff development for schools For FY-89, the request is made for a level-of funding which would provide a per ADA amount with no school district receiving less than $500. This line item also includes the funding for four Professional Development Centers. The total amount requested is $1,445,157.	$ 1,445,157	
8. Teacher consultant stipend For FY-89, the request is to maintain the FY-88 funding level of $1,026,854. These funds support a payment of $500 plus FICA per each teacher consultant.	$ 1,026,854	
9. Psychometric services For FY-89, the request is to maintain the FY-88 level of funding of $950,818. These funds support five districts in whose areas the Regional Education Service Centers cannot meet the requested needs for screening services provided by the RESCs. The local districts will expend these funds for many of the services listed above in order to help relieve the workload on the RESCs in their region.	$ 950,818	
10. Instructional computer services* For FY-89, the request is to maintain the FY-88 level of funding of $1,853,090. This amount funded 159 grants to 139 schools with 248 applications filed for such grants.	$ 1,853,090	
11. Library resources* For FY-89, the request is to maintain the FY-88 level of funding of $2,850,114. This amount funded 206 programs in FY-88.	$ 2,850,114	
12. School lunch programs For FY-89, the request is to maintain the FY-88 level of funding of $4,135,709. These funds provide 20¢ for each reduced price lunch and 5¢ for all lunches in FY-88.	$ 4,135,709	
13. Early childhood education* For FY-89, the request is for $805,275 which is $27,000 less than FY-88 due to transfer of funds from "Financial support of schools." There were 35 grants funded in FY-88.	$ 805,275	
14. Homebound children For FY-89, the request is to maintain the FY-88 level of funding of $1,279,551. These funds support the payment of homebound teachers ($9 per visit × 3 days a week), transportation, occupational and physical therapists, and room and board.	$ 1,279,551	

State Department of Education FY-89 Budget Request (Continued)

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
15. Oklahoma school/community arts-in-education*	$ 124,196	
For FY-89, the request is to maintain the FY-88 level of funding of $124,196. There were 35 grants funded in FY-88.		
16. Community education*	$ 401,000	
For FY-89, the request is to maintain the FY-88 level of funding of $401,000. This amount funded 62 programs in FY-88.		
17. Career education*	$ 135,144	
For FY-89, the request is to maintain the FY-88 level of funding of $135,144. There were 26 programs in FY-88.		
18. Alternative education*	$ 500,000	
For FY-89, the request is to maintain the FY-88 level of funding of $500,000. This amount funded 24 programs.		
19. Small school cooperatives*	$ 1,000,000	
For FY-89, the request is to maintain the FY-88 level of $1,000,000. This amount funded 55 programs in FY-88.		
20. Community literacy*	$ 200,000	
For FY-89, the request is to maintain the FY-88 level of $200,000. Pilot programs are planned to model successful reading programs which have demonstrated improved reading scores in students.		
21. Arts-in-education	$ 213,450	
For FY-89, the request is for $213,450 which is $81,000 below FY-88 levels. The $81,000 is requested in the "Financial support of schools" line item for FY-89. The amount requested will provide funding for the contract with the State Arts Council and for the Very Special Arts Program.		
22. ICTE	$ 0	
For FY-89, funds are not requested specifically under this line item; however, small school cooperatives and instructional computer services funded under this line item in FY-88 are requested as separate line items.		
*Distribution for program areas 10, 11, 13, 15, 16, 17, 18, 19 and 20 is as follows:		
District must apply for funds in one or more of the following programs:		
Instructional computers Library resources Early childhood School/community arts-in-education Community education (continued on next page)		

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
(Continued) Career education Alternative education Small school co-ops Community literacy		
The total amount of dollars for these line items will be divided by the ADA to determine the allocation per district with a minimum of $6,000 and a maximum of $30,000 per district, except for those districts:		
a) whose total revenue per weighted child is twice the state average revenue per weighted child or greater. These districts will not receive monies through this line item; or to districts		
b) whose total revenue per weighted child is one and one-half times the state average revenue per weighted child. The monies for these districts will be reduced by 25 percent.		
If a district fails to apply, funds go to the formula.		
District must use and account for use of funds in each particular program as per their application.		
Entitlement of funds would be statutorily based on:		
Total revenue per weighted child Number of ADA in district Maximum amount Minimum amount		
TOTAL COMMON EDUCATION		$912,489,682

State Department of Education FY-89 Budget Request (Continued)

	Total common education		772,195,756	140,293,926	912,489,682

[1] New line item for FY-89.

[2] Mid-term supplement was for $11,331,353; however, $486,538 went to ICTE.

[3] County superintendents' salary appropriated in H.B. 1473.

[4] Staff development needs $70,437 additional funds to pay minimum of $500 per district.

[5] Early childhood educ. had $27,000 transfer from Fin. Support. Put back in Fin. Support.

[6] ICTE needs $166,111 that was re-designated for full funding during FY-88.

(PIE) Provisional innovative education is a new proposed distribution formula to allocate dollars for the following programs (total $7,868,819):

Library resources	$2,850,114
Community education	$401,000
Early childhood	$805,275
Alternative education	$500,000
Career education	$135,144
Sch/Com. arts	$124,196
ICTE comput/sm sch	$2,853,090
Community literacy	$200,000

State Department of Education FY-89 Budget Request (Continued)

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
B. FY-90 BUDGET REQUEST: A new requirement has been added to the request for an additional year beyond the ensuing fiscal year (see "Comparison of Proposed FY-89 Budget Request and FY-90 Proposal"). Therefore, this request will be the same as FY-89 except for an increase to the Financial Support of Schools line item. The increase is requested by priority as follows:		
1. Financial support of schools		
FY-89 Proposed: $864,618,663	$997,368,189	
The State Board of Education is requesting an increase in the amount of $132,749,526 for the financial support of schools. These funds would provide:		
$ 30,000,000 New State Aid Formula funds		
84,130,985 State minimum salary schedule increase for teachers		
18,618,541 Support personnel salary increase		
$132,749,526 Total increase to line item		
OPERATIONAL FUNDS		
For FY-90, the State Board of Education, assuming the FY-89 recommendations have been funded, requests that an increase of $132,749,526 be added to the Financial Support of Schools line item. These funds are to be added to the line item for the purpose of increasing operational funds to school districts, supporting the new state minimum teacher salary schedule (increased an additional $2,000) above the FY-89 schedule as indicated on the Proposed Minimum Salary Schedule for 1989-90, and support salaries for support personnel. In addition, the funds will continue to support the weights for full day kindergarten programs, class size reduction from 24 to 22 students for grades 1, 2 and 3 if the provisions of FY-89 Budget Request have been met, as well as continuing the Academic Scholar weight. Line items other than financial support of schools are requested to remain at FY-89 levels.		
Purchase of textbooks	$14,075,400	
School lunch matching	2,181,934	
Supplementary materials/equip. for library resources	2,500,000	
Mid-term adjustment for attendance	12,000,000	
County superintendent's salary increase	193,327	
Staff development for schools	1,445,157	
Teacher consultant stipend	1,026,854	
Psychometric services	950,818	
Instructional computer services	1,853,090	
Library resources	2,850,114	
School lunch programs	4,135,709	
Early childhood education	805,275	
Homebound children	1,279,551	
Oklahoma school/community arts-in-education	124,196	

State Department of Education FY-89 Budget Request (Continued)

Program(s) to be adjusted (listed by priority) and explanation of effects on the programs	**Appropriated state funds**	**Total**
Community education	401,000	
Career education	135,144	
Alternative education	500,000	
Small school cooperatives	1,000,000	
Community literacy	200,000	
Arts-in-education	213,450	
Program areas designated in FY-89 to be distributed on an allocation basis are recommended to be continued in FY-90 using the same distribution process.		
TOTAL FOR FY-90		**$1,045,239,208**
TOTAL REQUEST FOR FY-89 & 90		**$1,957,728,890**
FY-89 = $ 912,489,682 FY-90 = $1,045,239,208		

State Department of Education FY-89 Budget Request (Continued)

Comparison of Proposed FY-89 Budget Request and FY-90 Proposal

Sect. No.	Program Areas	FY-89 Proposed	Amount of Change	FY-90 Proposed
81	1. Financial support of schools			
	$ 30.000.000 New state aid formula funds			
	84.130.985 For minimum teacher sal. incr.			
	18.618.541 For support sal. incr.			
	$132.749.526 Total incr. to line item	864.618.663	132.749.526	997.368.189
87	2. Purchase of textbooks	14.075.400	0	14.075.400
92	3. School lunch matching	2.181.934	0	2.181.934
—	4. Supp. material/equip. for lib. res.[1]	2.500.000	0	2.500.000
—	5. Mid-term supplement	12.000.000	0	12.000.000
—	6. County superintendent's sal. incr.	193.327	0	193.327
90	7. Staff development for schools	1.445.157	0	1.445.157
91	8. Teacher consultant stipend	1.026.854	0	1.026.854
89	9. Psychometric services	950.818	0	950.818
97	10. ICTE Instruct. computers (PIE)	1.853.090	0	1.853.090
94	11. Library resources (PIE)	2.850.114	0	2.850.114
92	12. School lunch programs	4.135.709	0	4.135.709
86	13. Early childhood education (PIE)	805.275	0	805.275
93	14. Homebound children	1.279.551	0	1.279.551
96	15. Okla. sch/com. arts-in-ed. (PIE)	124.196	0	124.196
86	16. Community education (PIE)	401.000	0	401.000
86	17. Career education (PIE)	135.144	0	135.144
86	18. Alternative education (PIE)	500.000	0	500.000
97	19. ICTE small schools (PIE)	1.000.000	0	1.000.000
86 & 103	20. Community literacy (PIE)	200.000	0	200.000
95	21. Arts-in-education	213.450	0	213.450
	Total common education	912.489.682	132.749.526	1.045.239.208

[1] New line item for FY-89.

(PIE) Provisional innovative education is a new proposed distribution formula to allocate dollars for the following programs (total $7.868.819):

Library resources	$2.850.114
Community education	$401.000
Early childhood	$805.275
Alternative education	$500.000
Career education	$135.144
Sch/Com. arts	$124.196
ICTE comput/sm sch	$2.853.090
Community literacy	$200.000

PROPOSED MINIMUM SALARY SCHEDULE FOR 1989-90

Years of experience	Bachelor's degree	Proposed	Master's degree	Proposed	Doctor's degree	Proposed
0	$17,060 + 2,000 =	$19,060	$18,166 + 2,000 =	$20,166	$19,272 + 2,000 =	$21,272
1	18,221 + 2,000 =	20,221	19,327 + 2,000 =	21,327	20,433 + 2,000 =	22,433
2	18,553 + 2,000 =	20,553	19,659 + 2,000 =	21,659	20,765 + 2,000 =	22,765
3	18,774 + 2,000 =	20,774	19,880 + 2,000 =	21,880	20,986 + 2,000 =	22,986
4	19,106 + 2,000 =	21,106	20,212 + 2,000 =	22,212	21,318 + 2,000 =	23,318
5	19,438 + 2,000 =	21,438	20,544 + 2,000 =	22,544	21,650 + 2,000 =	23,650
6	19,659 + 2,000 =	21,659	20,765 + 2,000 =	22,765	21,871 + 2,000 =	23,871
7	19,991 + 2,000 =	21,991	21,097 + 2,000 =	23,097	22,203 + 2,000 =	24,203
8	20,212 + 2,000 =	22,212	21,318 + 2,000 =	23,318	22,535 + 2,000 =	24,535
9	20,544 + 2,000 =	22,544	21,650 + 2,000 =	23,650	22,756 + 2,000 =	24,756
10	20,765 + 2,000 =	22,765	21,871 + 2,000 =	23,871	22,977 + 2,000 =	24,977
11	21,097 + 2,000 =	23,097	22,203 + 2,000 =	24,203	23,309 + 2,000 =	25,309
12	21,318 + 2,000 =	23,318	22,424 + 2,000 =	24,424	23,530 + 2,000 =	25,530
13	21,650 + 2,000 =	23,650	22,756 + 2,000 =	24,756	23,862 + 2,000 =	25,862
14	21,761 + 2,000 =	23,761	22,867 + 2,000 =	24,867	23,973 + 2,000 =	25,973
15	22,092 + 2,000 =	24,092	23,198 + 2,000 =	25,198	24,304 + 2,000 =	26,304

Executive Services

STATE BOARD OF EDUCATION

Dr. John M. Folks	State Superintendent and President
Burl Bartlett	Tulsa
Barbara Johnson	Owasso
Ray H. Potts	Oklahoma City
Seay Sanders	Midwest City
Jimmy V. Scales	Edmond
Dr. C.B. Wright	Stroud
Garreline A. Ebert	Chief Executive Secretary

The State Board of Education is the governing board of the State Department of Education and the public school system of the state. These members also serve on the State Board of Vocational and Technical Education.

The Board consists of seven members. The state superintendent of public instruction, who is elected for a four-year term by the people, serves as a voting member and president of the Board. The remaining six members are appointed by the governor and confirmed by the Senate and serve staggered, overlapping six-year terms. A term expires each year on April 1. Each member receives travel expenses, as allowed by law, while in the performance of his duties.

The State Board of Education meets in regular session once each month. Special meetings may be called by the president or by a majority of the members of the Board.

The control of the State Department of Education and the supervision of the public school system is vested in the State Board of Education and its duties include:

- Establishing and prescribing the duties of its executive officer, one duty of which is to give advice and make recommendations on all notices pertaining to policies and administration of the State Department of Education and the public school system; and
- Adopting policies, rules, and regulations for operation of the State Department of Education and public school systems.

The chief executive secretary serves as the clerk of the State Board of Education and the State Board of Vo-Tech Education. She is responsible for staff direction of two people, future planning, and serves as liaison between National Association of State Boards of Education and the two state boards.

Specific duties of the office are to process tax-sheltered annuity contracts for the Department; monitor and report on Due Process Teacher Hearings; write, edit and update Board publications and reports; maintain a long-range agenda; keep history of Board members; write and preserve Board minutes; prepare agendas and arrange Board meetings; publish and preserve all rules and regulations as required by law; sign and seal all legal documents of the Boards; establish written office procedures and prepare Board records for preservation at Records Center and Archives.

SPECIAL ASSISTANT TO THE STATE SUPERINTENDENT

The Special Assistant to the State Superintendent supervises the Community and Public Relations Section, the Special Projects Coordinator and the Teacher in Space inservices.

Through this office and these staff members, all press releases, articles, speeches and publications are designed.

written, edited and distributed. Major monthly publications include *Oklahoma Educator, Superintendent's Newsletter* and *Inner View*. Also, the Special Assistant serves as the editor for several statewide publications including the *Oklahoma Report* (North Central Association newsletter), *Focus* (Oklahoma Women in Education Administration's newsletter) and *Countdown* (the official newsletter for the Aerospace Foundation of Oklahoma).

In addition, regular publications produced by the State Department of Education include the Annual Report (three volumes), *Continuing the Commitment—A Progress Report*, and various other books, brochures and newsletters.

The Special Assistant coordinates the master calendar as well as meetings for the Superintendent's Advisory Council, Vo-Tech, SDE executive staff and administrative staff. She also serves as liaison for the Governor's Education Committee, the Governor's Task Force on Aerospace Education, the Education and Its Impact on Economic Growth Task Force (H.B. 1444), the Oklahoma Commission on Educational tional Leadership, Martin L. King Commemorative committee, Oklahoma Conference on Education, Oklahoma Veteran's Memorial Committee and the Oklahoma Business/Partnerships Committee. She represents the State Superintendent on the board of directors for Junior Achievement, Urban League and the Kirkpatrick Center, and is a board member of the Oklahoma Association for Supervision and Curriculum Development, the Educator's Hall of Fame, and an executive officer in Oklahoma Women in Education Administration and the Aerospace Foundation of Oklahoma.

The Special Assistant is directly involved with the Teacher/Administrator Evaluation Program and upon request assists school districts with evaluation training workshops. She directs the SDE involvement of in-kind services for special projects which combine the interests and needs of schools/business/community. Such projects include: Children's Medical Research "Salute to Oklahoma's Young Leaders," Christa McAuliffe Fellowship Program, Oklahomans Helping Oklahomans, Take Pride in America Campaign, McGruff Puppet Program, Invent America Campaign, Soviet Youth Exchange Program, Australian Bicentennial Program, Hugh O'Brien Youth Foundation, Martin Luther King Celebration.

The annual Oklahoma Conference on Education, the Education Flag ceremony and the Oklahoma Commission on Educational Administration's public service announcements are other outreach community activities under the special assistant's direction. She attends all State Board of Education meetings, administers the electronic mail system for the Department and serves as liaison with the media.

Major tasks for the coming year are the publication of an additional progress report, an information brochure on the SDE, expansion of the public service program, a series of research articles for the *Oklahoma Educator* on thinking and problem solving skills, illiteracy, AIDS education and other pertinent issues.

COMMUNICATIONS SECTION

The Communications and Information Section provides a steady flow of useful information to classroom teachers through the columns of the *Oklahoma Educator*, published seven times during the school year. Its columns are filled with reports on workable and innovative programs used by teachers which, through these reports, are shared with teachers throughout the state.

Sufficient copies are printed each issue for every classroom teacher in Oklahoma and are mailed to every school building in the state.

School administrators are also kept well-informed through the twice-monthly publication, *Superintendent's Newsletter*. This publication keeps local school district superintendents, building principals and school board members up-to-date on changes in the law, attorney general's opinions, changes in policy and regulation, State Board of Education actions and any other developments which affect the administration of local and state school affairs.

In addition, the news media is kept advised of school news through the publication and distribution of news releases as needed. The news media is also assisted, when requests are made, in arranging interviews with State Department of Education officials.

Many requests for information from the general public are also processed by the Communications and Information Section. Telephone calls are quickly channeled to the correct source in the belief that no one should be needlessly shunted from one office to another in the quest for answers.

This section also provides technical assistance, through typesetting, art and design work, for the preparation of curriculum guides, policy reports and other documents needed in the every-day business of providing educational materials.

A computerized mailing list of 6,125 addresses is maintained in this office for labels printed in the Research and Data Center for use in all sections of the Department.

The Oklahoma Legislature governor's office, budget office and local school district administrators are provided with an annual report, publication of which is coordinated by this office, and which provides the financial and statistical information needed in developing the annual budget for school operation.

As local school district administrators and classroom teachers have become more aware of the need for good local school/community relations, this section also provides staff development training programs to help local educators sharpen their skills in the art of communicating. Staff of this section presented more than a dozen workshops to teachers, principals and superintendents during the past year.

RESEARCH & DATA SERVICES

The Research and Data Services Section provides a combination of data processing and information analysis. The Data staff receives data from outside sources (mostly schools), enters it, updates it on-line, processes it, reports it, and stores it. Information that can currently be supplied includes district names and addresses, accreditation status, class sizes, hours taught, attendance records such as average daily attendance and average daily membership, revenues and expenditures, teacher certification, school plant facility inventory, entry-year teacher status and federal program evaluations. Data processing services are also used to provide in-house support for such activities as fiscal services, accounting and payroll.

The Research staff provides analysis and dissemination of information to the Department's executive staff, the legislature, school administrators and other information users. The goal of the Research staff is to provide an effective interpretive link between the extensive data base available and decision makers at all levels who seek information pertaining to schools. Assistance is also provided in designing and conducting various evaluation studies used by Department staff.

During 1986-87, Research and Data Services provided information and data for legislative use in making decisions on education and state agency bills which resulted in 47 new or amended statutes. In addition, over 180 requested computer studies of alternative fund distribution proposals showing effects on teachers, students, school districts, school sizes, teacher/pupil ratio, and other available funds were processed and provided to legislators, other policy makers, and their staffs. This unit also provided technical writing assistance and administration of approximately $1.5 million in legislatively funded instructional computer grants which were awarded for the 1986-87 school year by the State Board of Education.

The Data Section continued to provide scheduling, attendance, and grade reporting for those local districts who use state computer time while assisting them in developing their own use of current technology. Research and Data staff participated in the design of evaluation forms for various programs in order to facilitate the most effective use of information from those forms.

Research staff participated in a major project involving the review of all forms used by the State Department of Education to collect information from schools. A computerized inventory of all forms was underway at the end of the fiscal year to provide a data base and control mechanism which will eliminate the need for duplication of effort at the district level. Research staff also participated in a nationwide Education Data Improvement Project sponsored by the Council of Chief State School Officers and the U.S. Department of Education Center for Education Statistics.

The programmers and support staff of the Data Section spent most of the fiscal year extensively involved in the installation and conversion to a new mainframe computer system for the State Department. In addition to the many hours spent on the physical installation of the mainframe itself, much time was spent installing a local area network and hooking up new terminals throughout the building.

Due to drastic differences in the internal architecture of the two computer systems, every existing software system had to be completely redesigned and developed. This effort has involved literally millions of lines of programming. The necessity for redesign created the opportunity to convert many of the old "batch" type systems to on-line, user-controlled systems, thus contributing to our continued effort to provide upgraded user services.

Research and Data Services contributed to improvements in education during 1986-87 by providing the aforementioned services. The members of this unit continued toward achieving the goals of providing useful management data, evaluation and analysis in the area of appropriations, demographics on teachers, students and school districts, programs, expenditures and funding.

Instructional Services Division

TEACHER CERTIFICATION SECTION

Oklahoma law makes the certification of a teacher mandatory.

Certification is a process through which a state officially recognizes an educator as a professional person. A teaching certificate verifies that an educator has completed the preparation required to practice in a given field of teaching, leadership, or service and is *entrusted* by the state to perform in the best interest of students.

Standards for teacher preparation and certification reflect the philosophy inherent in the total educational program of a state. The state of Oklahoma ranks at the top nationally in the area of professional standards for teachers.

The Teacher Certification Section provides a guarantee to the parents and children that the teachers in the state's classrooms meet adequate and appropriate academic standards which have been set by the Oklahoma State Board of Education.

The role of the Teacher Certification Section is to issue appropriate standard teaching certificates to those who have completed approved teacher education programs and have been recommended for certification by an authorized official at an Oklahoma college or university. It is a further responsibility of this section to evaluate credentials of teachers who have completed their teacher education programs in another state. In addition, applicants who apply for non-standard teaching certificates and teachers who apply for renewal of their standard certificate are evaluated.

The Teacher Certification Section maintains a permanent teacher certification record of every teacher who is certified. The records of active teachers contain official transcripts, applications, certificates issued, evaluation checksheets, verification of degrees, and copies of all correspondence with the teacher. A record is also kept of all teachers who have been certified since 1925.

As mandated by law, the Teacher Certification Section, with the cooperation of the Oklahoma State Bureau of Investigation, can provide school districts with criminal history records of district employees or prospective employees.

The teacher certification process requires a close working relationship with the Teacher Education/Testing/Staff Development Section, School Accreditation Section, and the Teacher Personnel Section. Maintaining close ties with other state departments of education is necessary regarding teacher certification standards and the revocation of teaching certificates.

From January, 1986, to December, 1986, the Teacher Certification Section issued 23,853 teaching certificates. This number reflects renewals of standard certificates and licenses, new standard and new licenses, provisional and emergency certificates.

RURAL EDUCATION SECTION

The Rural Education Section provides additional support and leadership to the small/rural school districts of this state. Oklahoma is a state of small schools. Three-fourths of the school districts of this state have less that 1,000 in average daily attendance and two-thirds of the districts are less than 500 in average daily attendance.

This section serves as a liaison between the Department and rural education development activities.

The Rural Education Section directs the development of alternate systems of delivery of educational services to the small/rural schools. In order to meet the increased high school graduation requirements and higher college admission standards, many times the small school district must look at non-traditional methods of offering quality instruction in these areas. These academic cooperatives often represent a shared teacher, a shared facility, or a shared resource.

Academic Cooperatives

The 1986 session of the Oklahoma Legislature allocated $900,000 for the purpose of awarding on a competitive grant basis, grant monies for the development of small school academic cooperatives. The director of rural education administered those grants. Fifty-five grants were awarded, representing cooperative efforts among 93 districts and several institutions of higher education. The small school cooperatives were developed to serve the academic areas of math, science, foreign language, computer education, and music. The rural education director provides technical assistance and inservice concerning academic cooperatives.

Satellite Instruction

Another alternate system of delivery of instruction facilitated by this section is satellite delivery of instruction to 93 rural schools in Oklahoma. The Oklahoma State University Arts and Sciences Teleconferencing Service has developed comprehensive courses in German I, German II, and physics, which are downlinked from OSU two days a week for live-interactive instruction. Three days a week the students at each school site work on computer software, a voice-recognition unit, and a laboratory and are supervised by a certified coordinator. The director of rural education is responsible for program applications for these satellite programs.

The director serves as a liaison from the Department to the state organizations engaged in work in rural education. There are three major state organizations.

Clearinghouse

One of the difficulties in small/rural districts has been recruitment of teachers. The Rural Education Section facilitates a partnership project between the Department and the Employment Security Commission called the Clearinghouse for Elementary and Secondary Education. This listing is made available on the 10th of each month.

Through the section, activities are initiated for volunteer programs and partnerships between the business community, parents, and small school districts.

TEACHER EDUCATION/TESTING/ STAFF DEVELOPMENT SECTION

The Teacher Education/Testing/Staff Development Section is responsible for the administration of five major programs related to the preparation and professional development of teachers and administrators. The section and its five major programs are under the supervision of a director who also serves as executive secretary of the Professional Standards Board.

The Teacher Preparation Program administrator is responsible for the evaluation of teacher education programs at the 21 institutions of higher education in Oklahoma which prepare teachers and administrators. The administrator is responsible for assisting colleges and universities in developing teacher education programs that meet the standards established by the Professional Standards Board and approved by the State Board of Education. He also administers the faculty development program for teacher educators in the colleges and universities and assists the director in interpreting the Teacher Certification Standards when clarification is needed.

The administrator of Entry-Year Assistance/Staff Development/Evaluation Programs is responsible for the administration of three major programs. The Entry-Year Assistance and Staff Development Programs were mandated by 70 O.S. 1981, §6-150 and 158. To provide assistance regarding the programs and ensure that schools are in compliance with the regulations, four field-based coordinators are responsible to visit each of the 680 state accredited schools. Approximately 6,000 beginning teachers have participated in the Entry-Year Assistance Program since 1982. A new requirement for schools is the implementation of the Minimum Criteria for Effective Teaching and Administrative Performance, as mandated by 70 O.S. 1985 Supp., §6-102.2. The criteria were written by a committee of educators representing the different areas of education. After State Board approval of the criteria in December 1985, video and printed materials were prepared for training and distribution. Approximately 4,000 evaluators of certified public school personnel were trained in the use of the criteria at 105 sites in two-day sessions in April 1986. All training materials were placed in the 613 school districts to assist the schools with teacher training pursuant to the criteria. Training workshops for newly identified evaluators will be offered at appropriate intervals throughout the year. Training for First Year in Oklahoma Superintendents is a program that requires attendance at four seminars as follows: one week-long session in July; three sessions two days each during the school year. Since 1983, 160 superintendents have completed the seminar program.

The Oklahoma Teacher of the Year Award is an annual recognition process managed by the section. The Oklahoma winner is nominated for competition at the national level by John M. Folks, State Superintendent. The overall program is sponsored by the Council of Chief State School Officers, Encyclopedia Britannica, and Good Housekeeping Magazine.

The Teacher Certification Testing Program is administered by the section. A contract is negotiated annually with a national research and testing firm which assists in the development, revision and administration of curriculum exams mandated in 70 O.S. 1981, §6-156 and 70 O.S. 1985 Supp., §6-162. The State Department of Education tests in excess of 4,000 examinees a year, over four test administration periods, at six different sites throughout the state for each administration. Test administrators are psychometrists and administrators from Oklahoma Regional Education Service Centers. Coordination of the registration process, site selection, test revision meetings, reporting of test results, and media communications, is done by the section.

ACCREDITATION SECTION

The Accreditation Section is an integral part of the Division of Instruction of the State Department of Education. The Accreditation Section is charged with the leadership and the responsibility to interpret the policies and criteria as prescribed by the State Legislature and the State Board of Education under the direction of the state superintendent of public instruction.

The Accreditation Section is composed of an administrator and two assistant administrators, four secretaries and 18 regional accreditation officers. The regional accreditation officers have specific responsibilities and are responsible to serve specific counties based on density of size and the number of schools in the assigned areas. The regional accreditation officers are responsible to the Division of Instruction and the administrator of the Accreditation Section.

The accreditation of the public schools in Oklahoma is the function of the State Board of Education. The responsibility of meeting the standards of accreditation lies with the local school district. It is the policy of the State Board of Education to accredit schools primarily on the quality of instruction.

Elementary schools in high school districts are expected to meet standards and regulations for accrediting before the secondary school can be accredited.

Accrediting depends largely upon instructional conditions maintained in the elementary and secondary schools. Command of the fundamental processes is considered of primary importance in all subsequent education. Consequently, the entire program of education is examined as a basis for accreditation.

It is the policy to consider stability and permanence of the school organization and teaching staff as factors in accrediting schools. Frequent changes in the organization of the teaching staff directly affect the continuity and efficiency of instruction.

Each school is expected to meet the standards and regulations for accrediting at the opening of the term and to maintain these standards throughout the entire year.

The regional accreditation officers are responsible for visiting every school within their assigned area for the purpose of assisting schools in meeting required standards and recommending those schools to the administrator of the Accreditation Section who in turn presents and recommends them to the State Board of Education for accreditation for the preceding school year.

In addition to public schools in our state, legislative provisions are made to accredit parochial and private schools "in like manner" as public schools. During the 1986-87 school year 32 schools in this category were accredited by the state department. These schools are also the responsibility of the regional accreditation officers. The regional accreditation officers are responsible for the areas of monitoring local school board policies, physical facilities, properly certified and assigned teachers, curriculum/program studies (includes mandated areas involving House Bill 1816 and 1466), inventories, school year, school day, class size, teacher-pupil ratios, special education, Chapter 1 programs, attendance audits, activities regulations, etc.

During the preceding school year (1986-87) the accreditation section visited and recommended the following: 457 independent districts representing 487 high schools, three parochial high schools, three private high schools, 204 junior high schools, 142 middle schools, 39 area vocational technical schools, 154 dependent elementary schools, 27 parochial schools and five private schools.

North Central Association

The Accreditation Section is involved in a dual accreditation process. The North Central member schools in our state are also the responsibility of the regional accreditation officers. The North Central State Association is under the direction of the administrator of the Accreditation Section who serves as state North Central director. The assistant administrator for North Central, the assistant administrator for state accreditation along with two regional accreditation officers serve as associate North Central directors and along with the regional accreditation officers are a part of the North Central accreditation process.

During the 1986-87 school year 174 secondary schools, one college preparatory school, 21 area vocational-technical schools, 68 elementary schools, 45 junior high/middle schools, four special functions schools, three unit schools and 81 schools for candidacy were recommended by the Oklahoma State Committee of the North Central Association to the Commission on Schools for accreditation.

Thirty-nine schools were evaluated by an on-site visiting team composed of 18-25 educators from colleges and universities, teachers and administrators from NCA schools and State Department of Education personnel directed by a State Department of Education regional accreditation officer.

Forty-seven schools had an NCA mini-visit as a follow up to their third year progress report. The mini visit teams were composed of two State Department regional accreditation officers and/or North Central directors.

Each school recommended for accreditation to the Commission completed an application which was certified as correct after an on-site visit and review by the regional accreditation officer. The state committee also reviewed the applications and then made its final recommendation.

An annual meeting of NCA administrators was held for the purpose of discussing current issues and the new policies and standards. Also, a workshop was conducted for those schools that are to become involved in the self-study process and be reviewed by an on-site visiting team.

ARTS IN EDUCATION SECTION

Since 1975, the Arts in Education Section has actively responded to school districts expressing a desire to develop a comprehensive arts program. The components of a comprehensive arts program include:

Arts education: sequential skill development in the major art forms: music, art, drama, dance.

Arts in basic education: integration of arts and other areas of basic skills.

Specialized arts: intentional integration of arts into the curriculum for special learners.

Resources: effective use of arts resources.

Competitive grants are available through the Arts in Education Section to assist 30 school districts and approximately 200 school sites with program implementation. These sites represent a geographic balance throughout the state and include rural and metropolitan school districts.

Networks

A formal network structure is a positive and distinctive feature of the arts in education program. The network is composed of:

Administrative network which includes administrators from each AIE grant site who meet on a regular basis to design "futuristic" implementation strategies.

Arts coordinator network which includes an individual (full- or part-time) from each grant site who serves as a liaison between the local school district and the State Department of Education and is directly responsible for program implementation.

Arts planning teams which include arts educators, classroom teachers, administrators, students and community leaders who plan specific programs at the local level.

The Program

The arts in education program is designed to meet the needs identified through the AIE assessment. Specific objectives are identified for each site and implementation strategies and timelines are determined. Examples of programming might include:

1. Attention to a specific art form (writing, drama) not presently addressed in the school curriculum.
2. Expansion of an existing art form. Example: environmental metal sculpture, poetry anthologies, etc.
3. Concentration on teacher training.
4. Community outreach involving individual local artists and arts organizations as well as parents.
5. Attention to a specific component of the program. Example: training classroom teachers, expanding content of existing arts classes.
6. Appropriate arts experiences for a specific school population (gifted, special education).

Resources & Staff Development

Approximately 400 weeks of artist residencies representing all art forms were awarded to AIE sites from the State Arts Council of Oklahoma. Residencies included teacher training workshops and direct contact with students. In addition to these workshops, numerous teacher training sessions were conducted throughout the state to accommodate special interests of teachers and administrators.

Evaluation

Mid-year and end-of-year assessments were used as indicators of progress in each district. The Arts in Education staff provided technical assistance based on these reports and communicated through network meetings and on-site visitations with each district to see that program objectives were being met. Although objectives at each grant site were many and varied, each represented movement toward stronger arts programs for all children.

Special Projects

Arts and Basic Learning Exchange (ABLE) is a network of rural school districts whose purpose is the cooperative exploration and documentation of arts and other basic skills. The program encourages the use of local and statewide resources to supplement existing arts resources to impact more effective presentation of basic skills.

Very Special Arts - Oklahoma (VSA-O) is a state affiliate of the National Very Special Arts Program through the Kennedy Center for the Performing Arts in Washington, D.C. The intent of this program is improved arts curriculum designs for the handicapped population. In addition to year-round programming, local, regional and state Very Special Arts Festivals are conducted throughout the state to celebrate artistic achievements of the handicapped population and to bring public visibility to the artistic needs of the handicapped population. The program has as its primary focus three model sites:

1) Oklahoma School for the Deaf
2) The Gatesway Foundation
3) Lawton Public Schools

COMPREHENSIVE HEALTH SECTION

The Comprehensive Health Education Section staff helps plan, develop, and implement effective health and physical education programs in the public and private schools of Oklahoma. Physical fitness testing, movement education, aerobics, gymnastics, drug education, vision, hearing, dental, and scoliosis screening and nutrition education are examples of areas in which the staff are working to improve instructional programs at the present time.

The staff organized and conducted 120 workshops concerning health and physical education programs to disseminate current ideas, methods, techniques, and uses of materials at elementary and secondary levels. These inservice workshops embrace those processes of communication and education which help individuals to learn how to achieve and maintain a healthy lifestyle.

Health fitness and physical fitness is encouraged as a basic of all health and physical education programs to improve the health status of Oklahoma youth through increased levels of fitness. During the 1986-87 school year, 120 schools were involved in the "Fitnessgram" program. This program tests the physical fitness levels of the students.

Supplemental physical fitness materials have been inserviced through 57 workshops. Materials disseminated were the Walt Disney educational physical fitness guides entitled "Fit to be You." The Comprehensive Health Education Section supplied 1,000 teacher guides for grades K-3, 4-6, 7-9, and 10-12, along with 230 packets.

In October of 1986, the President signed the Drug-Free Schools and Communities Act of 1986 omnibus drug education bill. The State Department of Education responded by assigning a member of the Comprehensive Health Education staff to work full-time in implementing this federal program. Oklahoma received approximately $1.5 million for prevention education programs in the schools under this act.

During the 1986-87 school year, the staff presented and participated in 37 workshops covering a wide range of drug education topics but focusing on positive prevention education programs. The staff also participated in several interagency drug education efforts such as the Chemical People Project (A Generation At Risk), the Oklahoma Adolescent Health Task Force, Prevention Education Specialist curriculum planning, Central State University Health Education curriculum planning committee, Dare To Be You, "Drugs Destroy Dreams," and Students Against Drunk Driving.

In addition, the staff participated in various community efforts such as the Oklahoma Alliance Against Drugs, and supported Youth Court activities in several Oklahoma cities.

Curriculum materials have been developed in health and physical education, and curriculum review in cooperation with the Oklahoma Curriculum Improvement Commission. These publications should be of help to the schools in their health education programs.

Program evaluation is a vital function of the staff as they continue to participate on North Central evaluation and evaluation teams for 43 health and nutrition education grant programs.

One primary responsibility of the staff is to provide vision, hearing and dental screening in the schools. This screening is essential to detect potential problems early enough for remediation or correction. If such services are neglected, the child's learning can and will be affected. During 1986-87, 15,793 students were screened in 107 schools which resulted in 2,230 suggested referrals. Scoliosis screening is also offered as a service to the schools.

Coordinating the school nurse program is an on-going responsibility of the staff. Assistance was given in three statewide school nurse workshops, providing the latest information on school nurse services and health education promotion.

In 1986, 43 school districts were funded for health and nutrition education programs.

Oklahoma has 10 demonstration center schools selected for their outstanding comprehensive and physically active physical education programs. Staff was involved in the selecting process of the demonstration schools and continues to promote each of these programs as a model for other physical educators seeking new ways to update and improve their curriculum.

Cardiopulmonary resuscitation (CPR) is no longer a mandated program, but Comprehensive Health Education Section continues to train and certify teachers and administrators in the life saving technique of CPR. Thirteen CPR workshops were conducted, certifying 217 school personnel in basic CPR rescue.

As the staff strives to promote health education and healthy lifestyles throughout Oklahoma, cooperating agencies are a vital resource to these efforts. The American Heart Association; American Red Cross; State Health Department; State Mental Health Department; Oklahoma Health Systems Agency; Oklahoma Association for Health, Physical Education, Recreation and Dance; American Cancer Society; American Lung Association; Dental Health Association and Oklahoma Medical Association coordinate with the staff to disseminate current ideas, methods, techniques and materials to the public schools of Oklahoma.

CURRICULUM SECTION

The Curriculum Section has continued over the past year to evaluate curricular needs for Oklahoma schools. The section has coordinated and developed curriculum activities, inservice materials and publications.

New publications developed during the past year include *Suggested Learner Outcomes for Keyboarding*. The section is currently developing a curriculum guide for Acquired Immune Deficiency Syndrome (AIDS) Prevention Education as mandated by H.B. 1476.

More than 1,500 inservices were provided to educators over the state in all basic skill areas as well as techniques and methods to improve classroom management and to meet individual needs of the child.

Thirty-five early childhood education, 17 alternative education, and 26 career education programs were monitored.

Publications were disseminated to school districts in Oklahoma as well as the United States and countries throughout the world.

More than 2,000 catalogues were mailed to schools listing computer programs available for copying based on the type of computer used. More than 3,500 public domain programs are available for schools to copy. An extensive collection of loaned microcomputer software is housed for schools to preview before a decision is made to purchase the programs. MicroSift software evaluations are sent to many schools on a continual basis.

The section has also supervised and upgraded the guidance programs in local schools and area vocational schools in the state, and promoted additional guidance services where needed due to heavy student-counselor ratios, and has aided in the development of new guidance programs in schools where students are not presently being served by guidance programs. In addition, the staff has had the responsibility for inservicing public school personnel in the Vital Information for Education and Work (VIEW) program. VIEW is a career information program jointly developed and funded through the State Department of Vocational and Technical Education and the State Department of Education. Other functions include assisting schools in the development and use of student testing programs, assisting colleges with counselor education programs, working with professional counselor groups in conferences and committees, providing staff development opportunities for Oklahoma school counselors, providing support services for the State Health Department through county guidance centers serving the public schools, and assisting other state agencies such as the Oklahoma Employment Security Commission, Vocational-Rehabilitation and the Mental Health Agency.

The section continues to work with national organizations, other departments of education, and educational laboratories to promote excellence in education.

DRIVER & SAFETY EDUCATION SECTION

Numerous activities and services aimed at helping schools improve programs and meet the needs of individual students have been performed by the Driver and Safety Education Section.

Reimbursement

A total of 34,784 students were enrolled in driver education during the 1986-87 term of school. Public schools of the state were reimbursed $1,910,560 to help defray the cost of the program. The public secondary school program cost was $6,956,840.95 for the 1985-86 term of school. Average per student cost was $200.03.

Since 1967, 699,768 high school students have received instruction in the State Board of Education prescribed course of driver education.

School Visits

Four coordinators under the direction of the section administrator visited 440 public secondary schools and 12 non-public secondary schools in the state. The thrust of each visit was to assist the school administration and the instructor in developing an improved program of instruction in driver and traffic safety education; general safety education; emergency management instruction, and comprehensive K-9 traffic safety education.

Mobile Simulation

Nineteen mobile simulation units served 25,342 students in 276 local school districts. These units provided the local district laboratory capabilities for further developing the student's perceptual and motor skills enhancing his/her ability to cope with an ever increasing complex transportation system.

State Driver Education Clinic

The 19th Annual Driver Education Clinic was held at Central State University, Edmond, Oklahoma, April 13-14, 1987. Two hundred and fifty teachers attended.

Curriculum Guides

Seven traffic safety education guides have been developed to assist teachers in implementing the framework of safety for individuals at all levels of the school. These guides are: *Curriculum Guide for Teaching Driver and Traffic Safety Education; K-3 Pedestrian Safety Education Guide; 4-6 Pedestrian, Bicycle and School Bus Rider Education Guide; 7-9 Pedestrian, Bicycle Moped Safety Education Guide; Curriculum Guide for Teaching the Physically Handicapped to Drive; Curriculum Guide for Teaching Motorcycle Safety Education,* and *Hallways to Highways.*

GIFTED/TALENTED SECTION

S.B. 214 that governs gifted/talented education in Oklahoma was amended by House Bill 1466 in 1985. The amendments required local school districts to adopt written policy statements that provided for identification procedures for their particular school. The local districts were required to identify high I.Q. students, those scoring in the top 3 percent on a nationally standardized test of intellectual ability, and could also include high achieving students, creative or leadership gifted students, visual and performing arts students and specific academic ability students. Each school district has a copy of their district policy on file in the Gifted/Talented Section.

The annual child count indicated that the number of identified and served gifted/talented students increased by 1,644 students over the previous year.

	86-87	**85-86**	**84-85**
Grades 1-6	16,330	16,139	15,005
Grades 7-9	9,693	9,426	8,711
Grades 10-12	12,081	10,895	8,802
TOTALS	39,104	36,460	32,518

The identified gifted students are most frequently provided gifted/talented differentiated experiences within the regular classroom. The second most chosen option continues to be the pull-out program.

Gifted students are also being served by the following models: seminars, mentorships, acceleration, co-ops, honors, and advance placement courses.

The Gifted/Talented Section, consisting of one administrator and one coordinator, provided 57 inservice programs throughout the state. They also provided technical assistance, upon request, statewide to all LEAs. In addition, the staff participated in the annual meeting of the Council of State Directors of Programs for the Gifted; National TAG Symposium focusing on the Gifted of the Future; the National Association for Gifted Children; the Oklahoma Association for Gifted, Creative and Talented Children; Oklahoma Women in Education Administration; Oklahoma Association for School Curriculum Development; Oklahoma State School Boards Association; Oklahoma Conference on Education, and made presentations to parents, teachers attending the Gifted/Talented Section of OEA and the State Superintendents and Principals Workshop, served on North Central Accreditation teams and helped judge the first annual State Academic Bowl.

The staff also participated as advisory board members to the Pyramid Project in Ardmore and the American Indian Research and Development, Inc. The Pyramid Project in Ardmore is based on an able learner model designed by the Sid Richardson Institute in Dallas. The model is designed for individual instruction and allows students to accelerate through curriculum at their own pace of accomplishment. The American Indian Research and Development, Inc., was funded for a month-long gifted camp, Explorations in Creativity. The camp was expanded to meet the needs of gifted junior high age Indian youth as well as high school age students. The camp was attended by 78 Indian students from 3 states and was held at the Riverside Indian School in Anadarko. The students participated in classes that were selected from art, music, dance, drama, mathematics, and computer instruction.

The staff has participated in two Duke University Talent Identification Program Symposiums held on the campus of Duke University in Durham, NC. In the seventh annual Duke University Talent Search, 207 seventh grade students representing private and public schools in Oklahoma were honored for outstanding achievement in a ceremony held at Tulsa University. Thirty-three students were invited to participate in Duke's Summer Program which will offer accelerated programs in math, science, creative writing, foreign language, American history, and music. In addition, students scoring a combination score of 1,000 or more on the SAT were awarded scholarships to Oklahoma City University, Tulsa University, the University of Oklahoma, and Oklahoma State University. The staff was instrumental in arranging for the Young Astronauts to meet at the Spring Conference for Oklahoma Gifted, Creative, and Talented. The conference was attended by 1,500 Young Astronauts and their teachers from across the state who attended the session presented by the "Blue Star Project" from Washington, D.C. A close affiliation with the Partners of Americas was also formed. An exchange program for children was also coordinated, culminating with a week-long camp and a teacher education program in Ajijic, Mexico.

STATE READING/ STUDENT TESTING SECTION

The continuation of the reading program and execution of the student testing program responsibilities are described as follows:

Services Offered In Reading

- Needs-based inservice continues to be the major focus of the section's work in reading. Through the continuous, needs-based on-site inservice program provided by this section, the consultants are able to aid school personnel with evaluation of programs at all levels, instructional strategies and activities which are appropriate for meeting specific learning objectives, and planning/implementing reading programs in grades K-12.
- Development of materials containing practical ideas for teaching all of the various reading and related thinking skills is a priority. Hundreds of handouts and 12 major curriculum guides had

been developed, published, and distributed with inservice by the end of 1987 to aid teachers in meeting students' instructional needs. The curriculum guides include *Reading Sampler* (revised 1983); *Metamorphosis: Challenging the Gifted Reader* (1982); *Parents, Kids, Teachers, Inc.* (1982); *Principals/Reading: The Vital Connection* (1982); *Follow the Leader: Teaching English to Speakers of Other Languages* (1982); *OK-NEWS* (1983); *Kaleidoscope: Teaching Creative Reading, Thinking, and Writing Skills* (1985); *Mission Possible: Handling Reading Problems in the Regular Classroom* (1985); *Seeds of Freedom* (guides for K-6 and 7-12 to help teachers commemorate the life, philosophy and accomplishments of Dr. Martin Luther King, Jr., 1986); and *Teaching Reading in the Content Areas* (1986).

- Suggested Learner Outcomes in Reading were developed for grades 1-8 (1984) and 9-12 (1985) in conjunction with the Curriculum Section's work. These teaching/learning objectives have been distributed to requesting school faculties with inservice.
- The OK-NEWS program continues to be implemented and maintained in requesting school districts. Piloted with 100 schools in 1982 to encourage teachers to use the newspaper as a tool in teaching reading and creative writing skills, OK-NEWS continues to be used K-12 in many schools throughout the state.
- Over 700 schools continue to utilize portions of "Read On, Oklahoma!—A Five-Year Plan to Enhance Reading Achievement," implemented in 1984. This plan features motivational ideas to enhance reading as well as an outline to aid schools in evaluating and improving local school and district reading programs over a five-year period.
- A focus has been placed on encouraging schools to implement secondary reading programs to fit the instructional needs of students at all levels of reading abilities. Each year several schools are added to the list of those who continue to teach reading skills beyond the fifth and sixth grades. Services offered in implementing such programs include planning for staff, scheduling, and other organizational needs; determining the needs of students who will participate; developing entrance criteria and screening methods; providing guidelines for selection of materials and placement of students in appropriate levels of materials; designing facilities to meet program needs; and organizing all factors for individualizing the reading program.
- The section consultants work closely with and help provide leadership for Oklahoma Reading Council, a professional organization whose philosophy and goals focus on improvement of reading instruction throughout the state. In addition, section personnel have provided national exposure of Oklahoma's program through presentations at the International Reading Association and the World Congress on Reading conventions.

Oklahoma School Testing Program (OSTP)

The Education Improvement Act of 1985 (H.B. 1466) mandated that a standardized, norm-referenced test be administered to students in grades 3, 7 and 10 statewide. The purpose of the program is "to afford a component for use along with other pertinent data in evaluating the effectiveness of the public schools as shown by the competence and progress of pupils in basic skills" (H.B. 1466). The skills measured by the test are reading, language arts, mathematics, science and social studies. The function of the OSTP is "through applied research . . . to improve all phases of the state public educational system" (H.B. 1466).

To initiate the test selection process, a Request for Proposals (RFP) describing Oklahoma's need for specific materials and services was released to test companies nationwide. Using evaluation instruments containing more than 100 criteria, two statewide committees collectively comprised of 80 educators reviewed the four bids received. Based on the review committees' recommendation, the State Board of Education selected the Metropolitan Achievement Tests, 6th Edition (MAT-6), published by The Psychological Corporation, as the instrument for Oklahoma's use.

Tests were administered in March of 1986 and 1987 to an average of 40,000 students in each of grades 3, 7 and 10. Students with Individualized Education Plans pursuant to P.L. 49-142 participated in the OSTP only with written parental permission.

In compliance with the mandate in H.B. 1466, the State Reading/Student Testing Section provides pre-test inservice for all schools. Topics included implementation procedures, test content/objectives, maintaining test validity, test security requirements, and procedures for handling tests and related materials. Served each year in more than 350 inservices were approximately 8,500 test administrators, building and district test coordinators and school administrators.

A post-test inservice was conducted for all cooperating schools on (1) decoding information on test score reports; (2) interpretation of data; and (3) use of test results at the local classroom, building and district levels for improvement of instructional programs (e.g., aid in compliance with H.B. 1466 regarding use of test scores in developing the Five-Year School Improvement Plans).

In 1986, S.B. 426 mandated the administration of a direct writing assessment to students in 10th grade in 1986-87, and—providing that funds are available—to students in grades 7 and 10 (1987-88) and grades 3, 7 and 10 (1988-89). As a component of the OSTP, this program focuses on measurement of students' actual writing skills. Employing the state bid process and same evaluation procedures used in the OSTP, the State Board of Education selected the MAT-6 Writing Test, published by The Psychological Corporation, for use in measuring the writing skills of Oklahoma's 10th grade students.

Implementation of the Writing Assessment Component of the OSTP began with administration of the MAT-6 Writing Test to 38,568 10th grade students. During the 1987-88 school year, the writing skills of students in grades 7 and 10 will be measured.

Continued maintenance of the OSTP includes providing both pre- and post-test inservices on both phases of the testing program for all schools statewide. Services within the post-test inservice program have been expanded at school administrators' requests to include interpretation and use of test scores for improvement of instructional programs in all grades 1-12.

Financial & Legal Services

ADMINISTRATIVE SERVICES DIVISION

The Administrative Services Division is responsible for supervision of the internal administrative functions of the agency. Direct responsibilities include coordination of the agency Risk Management insurance program; implementation of the Records Management Act, the Preservation of Essential Records Act, and the Publications Clearinghouse; production of the Oklahoma Educational Directory; and supervision of mail services. The following programs are included in the Administrative Services Division:

Fiscal Services is responsible for processing all agency financial transactions, including payroll, travel and miscellaneous claims, and requests for purchases. This program also prepares agency budgets, performs electronic accounting functions, supervises the flow of federal funds, maintains an inventory of department equipment, and manages the employee health insurance program.

The ***Media Resource Center*** provides daytime programming (five days per week, 32 weeks per year) for the Oklahoma Educational Television Authority. In addition, the section maintains a large film/filmstrip library and provides inservice training in media resources to local education agencies.

Personnel Services coordinates hiring procedures for all new employees, maintains personnel and leave records, and develops personnel policies, affirmative action policies, grievance procedures, and the reduction in force plan.

Printing Services produced 14,566,675 copies last year, including most of the material disseminated by the Department.

Word Processing prepares camera-ready copy for much of the material printed by the Department. Output totals in excess of 60,000 pages annually.

FISCAL SERVICES

This program provides the fiscal service function necessary for the operation of the State Department of Education. A computerized accounting system is maintained that includes all activities required to provide management with quantified information needed for planning, controlling, and reporting the financial condition and operations of the Department.

The system includes the established accounting double-entry transactions rule which provides the most fundamental and essential internal control within the system. The goal is to increase the emphasis of upgrading the necessary data output for maintaining accurate and reliable accounting records for the administration and for federal and state auditors.

The Fiscal Services Section follows the Budget Law of 1947, Title 62 of the Oklahoma Statutes, which requires the director of state finance to prescribe all forms, systems, and procedures for administering accounting for the departments and establishments of state government; informs education officials and employees responsible for the receipt and disbursement of public funds of the principal laws governing the state's fiscal operations; and also, assists and instructs such persons in the necessary procedures to be followed.

Responsibilities are:

1. To prepare the work budget, requested budget, budget revisions, and allotments.
2. To prepare monthly payrolls and distribute payroll warrants for approximately 563 employees.
3. To purchase all approved supplies, equipment, and materials; to prepare all Office of Public Affairs requisitions and contracts.
4. To pre-audit for payment all approved travel expenses and distribute warrants.

5. To pre-audit all invoices and delivery slips and prepare claims for payment. Maintain up-to-date records of all encumbered and non-encumbered obligations.
6. To act as insurance agent for all employees and process for payment and submit all bills to the group life, health and dental insurance office. Submit all worker compensation claims. Maintain individual records and files.
7. To make payment of all other approved operating expenses.
8. To prepare for deposit daily all funds received. Draw funds from letters of credit. Prepare quarterly federal reports.
9. To prepare for payment reimbursement claims to schools from federal program funds, motor vehicle driver education, Johnson O'Malley Indian education and the comprehensive health grants.
10. To prepare various legislative reports.
11. To maintain up-to-date inventory records as mandated in Title 74 of the Oklahoma Statutes.

MEDIA RESOURCE CENTER

It is the responsibility of the Media Resource Center to procure daytime programming on the Oklahoma Educational Television Authority (Channels 3, 11, 12, 13). These instructional television programs are broadcast Monday through Friday from 9:30 a.m.-3 p.m. for a 32-week period during the calendar school year. It is also the responsibility of the Media Resource Center to purchase, lease, and/or produce the series selected for broadcast. The selection process is conducted on an annual basis utilizing expertise from various professionals in the field of educational programming, Instructional Television Advisory Committee, and educators actively using ITV.

Annually the section prepares and distributes the Instructional Television Schedule booklet. The book provides basic information needed in order to use instructional television programming. During the 1986-87 school year, 15,000 ITV schedule booklets were disseminated to Oklahoma educators. For maximum utilization, more than 17,000 individual teacher guides containing extensive program descriptions and recommended classroom activities were available to teachers upon request.

The Instructional Media Library is located in the Media Resource Center. The library contains approximately 1,750 titles consisting of audiovisual materials for usage in an educational setting in Oklahoma public schools. An estimated 7,200 copies were mailed to the public schools during the calendar school year, for an average of 800 shipments monthly. This entailed over 1,200 recipients of media materials from the library. A Media Resource Catalog is available for further information on the utilization and ordering procedures of educational materials.

Another service of the section is to maintain an inventory of media equipment housed in the Oklahoma State Department of Education. The Media Center supplies the agency with media equipment for loan, in addition to onsite facilities for previewing of audiovisual materials.

Inservice training in the areas of instructional television, audiovisual utilization, software development, as well as technical equipment training were provided by the staff to schools throughout the state. This training was also available to department personnel. The Media Resource Center will continue to provide these services upon request.

PERSONNEL SERVICES

This office is responsible for a centralized personnel and affirmative action program following policies set by the State Superintendent of Public Instruction and approved by the State Board of Education. Our responsibility is to obtain and retain the best possible staff to carry out the ultimate goals of education.

State Superintendent John Folks' philosophy is to select the best possible person for each position in the department based on job-related qualifications and individual abilities without regard to race, color, national origin, ethnic background, political party, religion, age, sex, or handicap.

Duties of the section are: to ensure that all requirements of federal and state laws and regulations applicable to employment are met, and that persons have been appointed and employed in accordance with the State Personnel Act; to establish job classifications, specifications, and salary schedules; assist with annual budgets and costs for various federal projects; advertise positions, receive and process applications for employment; conduct interviews; transact all job status changes; make personnel reports and surveys; and maintain liaison with the Oklahoma Office of Personnel Management, Oklahoma Merit Protection Commission, other state agencies, and all civil rights groups.

All permanent sick and annual leave records are calculated monthly and maintained in Personnel Services. Longevity dates are established and adjusted when necessary, and longevity pay is calculated each month. The Affirmative Action Plan is revised annually by Personnel Services, approved by the Office of Personnel Management and the State Board of Education, and distributed to all employees.

The State Department of Education presently has 552 employees to serve the public schools of Oklahoma and the general public. Employees are provided a personnel policies handbook approved by the State Board of Education, written and distributed by this office. All new employees are given orientation and a Personnel Policies Handbook by the administrator of Personnel Services. A file is maintained on each employee past and present.

Some of the goals of the personnel office are to improve communications within the department and to help motivate employees toward common educational goals; to know as much as possible about the inner workings of the State Department of Education, the priority goals, the goals of each section and to help further these goals in any way possible.

PRINTING SERVICES

Printing Services performs various tasks of copy reproduction, offset printing, collating, binding, line copying, and halftone reproduction. In addition to maintenance of equipment and ordering supplies, the section maintains records of impressions and billing of xerox and printing services. The annual total of impressions is approximately 14 million copies, with an average run length of less than 200 copies.

Further responsibilities of this section include maintenance of all copiers within the State Department of Education, including all Regional Educational Service Centers throughout the state, plus ordering supplies for all machines.

Services are exclusive to the State Department of Education.

RECORDS MANAGEMENT

The administrator for Records Management is responsible for the implementation of Oklahoma Statute 67: Records Management Program; Oklahoma Statute 74: Preservation and Disposition of Records; and Oklahoma Statute 65: Publications Clearinghouse.

This implementation has a guided, regulated procedure as outlined in the *Records Management Manual* and the *Manual for Publications Officers*. These manuals are published and kept current by the Oklahoma Department of Libraries. Statutory responsibility of state records resides with the Department of Libraries.

Activities which make Records Management function in the Department of Education are: (1) records clerks training sessions and (2) administrator meetings (primarily on an individual basis RE a particular section's records).

The ideal of Records Management is an appointed records clerk in each section of the agency. The records clerk is delegated to implement the records schedule, create a flow chart for the section and update the records schedule as new records are generated.

WORD PROCESSING

Word Processing prepares camera-ready copy for printing departmental materials.

Publications include the School Laws of Oklahoma, Administrators Handbook (blue book), Oklahoma Educational Directory (orange book), and State Board of Education Regulations for Administration and Handbook on Budgeting and Business Management (red book). In addition, the section produced charts, graphs, grant applications, forms, state plans, bibliographies, transparencies, flowcharts and curriculum guides.

FY87 production was 69,624 pages and 11,298 envelopes.

LEGAL SERVICES

In the past year, Legal Services has been involved in approximately eight lawsuits. In addition to the traditional special education lawsuits, the department was also involved in two student transfer cases.

Other activities engaged in by Legal Services this past year included continuation of revisions to the School Law Book, service on the State Health Department's AIDS Task Force and AIDS Education Curriculum Panel. In addition, Legal Services assisted various divisions within the agency in researching pertinent legal questions including annexation of two school districts, and participated in the revocation of eight teaching certificates. The department attorney served as program chairman of NASBE's legal conference.

A major function of the Legal Services Division in the past year has been presentation of speeches to a variety of educational organizations. Finally, a major function of this division is to research and answer questions presented by school districts, concerned citizens, and parents in reference to educational issues.

FINANCIAL SERVICES DIVISION

The assistant superintendent for finance in the State Department of Education is also the director of finance for public schools. She is assisted in the performance of her duties by an assistant director of finance, one informational representative and one secretary.

For administrative purposes the Finance Division is divided into five separate yet interrelated sections: Auditing; State Aid; Teacher Personnel Records; Textbooks; and Transportation, Annexation and Consolidation. These sections work in harmony with each other and the division administration to service the several functions of the Finance Division and to best accommodate the public schools of Oklahoma.

The Finance Division is charged with the responsibility of allocation, disbursement, and accounting for those monies appropriated by the legislature for public schools. Added to this responsibility is the function of acting as a consultant to many publics including public schools, patrons, local boards and legislative committees. The division is called on regularly to make interpretations of school law and State Board policy.

The division plays a leadership role in developing for the State Board of Education a detailed budgetary request to the governor's office describing the program needs of common education for the ensuing year and recommending the appropriations necessary to finance the request.

After the close of the fiscal year, the division is deeply involved in the compilation of data for the *Annual Report of the Oklahoma Department of Education*. This statutory required report is made after the *Estimate of Needs and Financial Report* of each school district is researched and processed.

Each July, the Summer Workshop for School Administrators is held in Oklahoma. This two and one-half day workshop speaks to the most critical needs in school administration. Approximately 900 school administrators attend this workshop each year.

The personnel of the division makes from eight to 20 presentations across the state addressing current school legislation in group situations.

The division communicates with public school administrators on a regular basis concerning any and all changes in the state's financial situation that will have an effect on local district finances. Personnel meets with many county and district educators each year for staff development services and as a consultant as requested. Intra-departmental communication is vigorously pursued in order to keep abreast of current policy and educational activity.

The Finance Division serves as a resource and research arm of the Oklahoma Commission on School Funds Management.

The Finance Division is the official repository of the *State Board of Education Regulations for Administration and Handbook on Budgeting and Business Management.* The division makes recommendations for periodic review and revision and keeps a supply on hand for schools, finance classes and the general public. The department also has a collection of business form samples and other items useful to the local school business office. On occasion workshops are conducted for support persons in the school business office as well as orientation conferences for new independent treasurers.

During the year the Finance Division processes approximately 24,944 requests for student transfers from one school district to another. This number consists of both regular and emergency transfers.

Interagency communication is vital and on-going in the Finance Division. Informational exchanges among the several departments of state government are essential to secure reliable data from the Tax Commission, the budget office, and the state auditor's office. The state treasurer is most important in the prompt and accurate disbursement of monies to the schools.

The sections in the Finance Division are high production units engaged in very technical and sensitive activities. The distribution of funds, the experience records of teachers and support personnel, the safety of bus riders, and provision for textbooks coupled with business management, accounting and reporting are demanding on the personnel involved and has resulted in high credibility.

AUDITING SECTION

The Auditing Section provided services to education during the 1986-87 school year which assisted in ensuring that public funds were properly distributed to and expended by school districts in compliance with state and federal statutes and regulations.

Internal auditors audited the salaries paid to the teachers in each school district to determine that each teacher received the minimum salary required by law and that each substitute who taught in excess of 35 days was certified. These auditors also performed summer lunch program audits in accordance with federal regulations. Special assignments delegated to our auditors included reviews of accounting records and procedures utilized by the schools in their assigned areas and the investigation of complaints from patrons regarding alleged irregularities in accounting practices or the expenditure of district funds. When irregularities were found to exist, reports and recommendations were made to the State Board of Education. Beginning with the 1985-86 school year, the internal auditors performed audit reports on all state grants awarded to local school districts for the prior year.

The Auditing Section received and processed audits performed by area supervisors on daily attendance, membership and transportation records maintained by each school district. These audits verify figures which are used in calculating a part of the state aid distributed to schools. Some of the school districts requested additional state funds based on an increase in daily attendance. The area supervisors did a mid-term audit on each school district that made application for a mid-term adjustment.

Several complaints were processed concerning alleged illegal students attending other districts without legal transfers. State aid is withheld from these school districts until the county superintendent is notified and then makes a ruling on the legal residence of these particular students. Any question as to the place of residence of any pupil shall be decided by the county superintendent of schools of the county in which the pupil contends to reside.

Oklahoma statutes require an annual financial audit on all school districts in the state to be performed by independent auditors. Federal statutes also require compliance audits on each school district which receive in excess of $25,000 in federal assistance in any fiscal year. The Auditing Section has the responsibility of reviewing these independent audits, evaluating audit comments, and determining if these audits meet standards of state and federal statutes and regulations. In addition, the Auditing Section corresponds with local school officials and State Department of Education federal program administrators on each school district which has operational deficiencies in their accounting systems and/or violations of state and federal statutes and regulations. Time is devoted to this area by the entire auditing staff to provide the technical expertise necessary to assist the local districts in maintaining compliance with applicable statutes and regulations.

STATE AID SECTION

The primary objective of the State Aid Section is to distribute, collect and monitor reports from 611 school districts for making a fair and equitable allocation and distribution of state aid funds as provided by current legislation and State Board of Education policy. In 1986-87, the State Aid Section allocated and paid $757,377,347 from state-appropriated money to school districts and other agencies.

The allocation and distribution of state aid is a complicated process which requires a wealth of data from reports such as the Application for State Aid, School District Expenditure Report, Annual Statistical Report, Estimate of Needs and Financial Statement, and Attendance Audit. This section collects and verifies statistics from these reports that are necessary for calculation of the state aid formula as well as other line item allocations.

Once the allocation is made, a notice of allocation for each line item is forwarded to the school administrator, county superintendent, county clerk, district treasurer, and clerk of the board. Appropriated money is apportioned in monthly payments and processed through the Office of State Finance for payment to districts. The Office of State Finance forwards warrants to the State Aid Section for processing and mailing to local districts.

The State Aid Section certifies to the Oklahoma Tax Commission, State School Land Commission, and to county treasurers the average daily attendance of each school district for apportioning state dedicated revenues such as Motor Vehicle Collections, Gross Production Tax, Motor Vehicle Stamp Tax, REA Tax, and School Land Earnings.

Each year following the legislative session, a quarterly allotment request and a budget work program are prepared, which stipulate in which quarter money is needed for disbursement to school districts. Payments to districts for line items must be made as designated by the work program.

When the Estimate of Needs and Financial Statement is completed and approved by each county excise board, copies are forwarded to the State Board of Equalization. Starting in September, designated members of our staff spend approximately three months compiling income sheets from the Estimate of Needs and Financial Statements for each district. The income sheet reflects actual collections from all sources for the prior year, current valuations, and estimated appropriations for the current year. Copies of the forms are distributed to the schools of each county through the office of the county superintendent. The section analyzes schools' Estimate of Needs and Financial Statements, together with subsequent appropriations, to assist schools in getting all available funds appropriated, as well as to prevent schools from overencumbering their appropriations.

The section monitors the development of computer software for financial and pupil attendance accounting to ensure that proposed software meets the requirements set forth by State Board of Education regulations. The number of schools processing their financial and pupil attendance accounting by computer increases each year.

The State Aid Section processes approximately 25,000 requests for student transfers each year. Special student records are also processed and maintained.

The section is responsible for: researching school budgets for bonded indebtedness, preparing budget analyses, preparing projections upon request, assisting in the revision of State Board of Education regulations, and assisting in the development of potential legislation relative to school district financial accounting and what effects such legislation will have on the various school districts.

TEACHER PERSONNEL RECORDS SECTION

The Teacher Personnel Section has a staff of four and maintains a record of years of experience, salaries, certificate numbers and degrees of every teacher teaching in the public schools of Oklahoma—40,000 active records.

Both active and inactive records total around 114,000. Records in this office date back to the 1914-15 school year. The records from that time through 1930-31 are on microfilm, and those from 1931-32 through the present school year are bound in books, by county and district.

The year begins with mailing out the pre-print personnel report by August 20 to all school districts and county superintendents. They must be returned by October 15 and each one is checked and worked. This is usually completed in December.

After the pre-print is finished and all information has been updated by computer, we ask for a reprinted copy. This is called the Final Personnel. These reports are mailed to the superintendent and county superintendent of each district for their approval. After signing and notarizing this personnel, he or she returns it and we check any added teachers or changes that have been made.

A supplemental form is used for districts to report any changes that occur after returning the final copy of the personnel report. Substitute teachers teaching more than 35 days during the school year must also be reported on the supplemental form. These reports have to be checked and worked just as the other personnels.

A visible index file has been set up by the Teacher Personnel Section, by certificate number, showing the verified qualifications, teaching experience and military service for every teacher who has taught in Oklahoma since the year 1949-50. Our records are now on computer and each employee has a desk-top terminal. By entering the teacher number, the individual teacher's record will appear on the screen showing the year, state, county, district number, months employed, position held, annual salary, qualifications and the cumulative teaching experience.

The teaching experience for former Oklahoma teachers now teaching in other states is given on request.

Information is also available to superintendents and boards of education relative to qualifications and experience of prospective employees.

Service is also rendered to the Teacher's Retirement System.

When a deficiency between the salary being paid to a teacher and the legal minimum for which that teacher qualifies is found, the Teacher Records Section will notify the superintendent of the district that just compensation must be made to that teacher.

Maintain a record of job function, current salary, number of months employed and social security number of all support personnel. These reports must be checked for accuracy.

The Teacher Personnel Records Section maintains a print-out of all entry year teachers to provide information to other sections for payment of consultant fee.

An annual report for Legislative Handbook on number of teachers teaching in Oklahoma and average salary is compiled, as are the salary schedules of all districts in the state as per law by Dec. 15 each year.

Throughout the school year this section is constantly checking the accuracy of the Teacher Personnel Records.

TEXTBOOK SECTION

The Oklahoma textbook system was established by an act of the 21st Legislature and became effective July 1, 1948. The law was based on an amendment to Section 6 Article XIII of the Oklahoma Constitution. This amendment directed the legislature to provide a system of free textbooks for use by all pupils in the common schools of the state. The amendment required the governor to appoint a State Textbook Committee whose duty is to prepare an official multiple textbooks list for use in the common schools of the state.

The State Textbook Committee is now comprised of 13 members. Two members are appointed from each of the six congressional districts. All must be certified educators with at least five years experience. The 13th member is a lay citizen educator not having a teaching certificate and having at least one child in the Oklahoma public school system. The committee must contain a majority of classroom teachers. Each member serves a three-year term. The terms are staggered with four new educators being named each year and the lay member every third year.

The responsibility, as defined by law, of the State Textbook Committee is to select up to 10 textbooks or series of textbooks for each subject for a period of not more than five years. The consideration process begins each year the last two weeks in May when a call-for-bids is issued to all publishers inviting them to submit their materials for adoption in those subjects called. During 1986-87 the State Textbook Committee considered materials in mathematics, foreign language, health, driver education and physical education.

Bids must be received before August 15. Samples of all items bid are furnished to the Committee and their advisors as well as to the State Textbook Section and to six congressional review centers. Materials are available to the public and during the last two weeks in October public hearings are held before the State Textbook Committee allowing citizens of Oklahoma who file a written request to appear and present testimony about materials up for adoption. Then, before Dec. 1, the committee meets and adopts textbooks.

Immediately upon completion of the adoption process the Textbook Section prepares and distributes to all school districts in the state an official adoption list. A system of samples for evaluation purposes is available to all schools through the textbook office. These samples must be requested by requisition from the school no later than Nov. 30 each year and shipment will be made to requesting schools after Jan. 1.

Local school districts go through their own textbook adoption process as required by law before June 1.

When the legislature appropriates money annually for textbook purchases, money is withheld in the textbook office for rebinding, freight and handling and for the replacement of textbooks destroyed by fire, water, tornadoes or other natural disasters. The 1986-87 appropriation was $9,196,155 or $16 per student based on ADA.

During the 1986-87 school year, four claims totaling $9,345.60 were processed for rebinding adopted textbooks. For the same period, two schools required replacement of materials destroyed by fire, water or tornadoes. Those claims totaled $3,443.92. Unused money withheld from appropriations for rebinding, replacement, freight and handling was carried forward to the 1987-88 school year and added to the new appropriation before its allocation.

The Textbook Section processes all correspondence authorized by the State Textbook Committee. This includes calls-for-bid, calls-for-substitution, bid processing, contracts and bonds between the state and publishers, verification of contracts and bonds with the attorney general, filing of contracts and bonds with the secretary of state, notifications to schools of new adoptions or procedures, sample requests and incidental correspondence.

Another responsibility of the Textbook Section is the development and distribution of the Annual Textbook Requisition. It then becomes our responsibility to process the annual requisitions and subsequent supplemental requisitions for textbooks. During the school year, the Textbook Section processes approximately 3,000 requisitions. This requires that purchase orders be made, verifications be received and filed, warrants issued and accounts balanced for each purchase order. Account records are maintained within the Textbook Section for all school districts.

Coordination and communication among the Textbook Committee, the State Department of Education, publishers, depositories and each school district in the state are of paramount importance.

The Textbook Section has the responsibility of maintaining a smooth and effective textbook evaluation, selection and distribution process. Their effectiveness influences the most important aspect of the system: the quality of education for the students in Oklahoma.

TRANSPORTATION, ANNEXATION & CONSOLIDATION SECTION

The Transportation, Annexation, and Consolidation Section of the State Department of Education has several services that it offers to Oklahoma school districts.

Official maps of each school district are on file and kept up-to-date. Any time an annexation order from any county superintendent in the state is received, the official map is changed along with filing the order in a set of permanent annexation books located in the transportation section. Many annexation questions are handled through this section and annexation forms are dispersed to schools and county superintendents that need to move forward with annexations.

This section also responds to any requests for consolidation feasibility studies. A team of State Department of Education personnel visit the schools and make recommendations on what they have found. If a school district votes to dispense and join with another district, those official records are kept in this section. The same would hold true if two districts consolidate into one. Those records and maps of the district are also on file.

In the area of school bus transportation, several areas of service are available. School bus drivers are certified in 80 workshops held across the state. They are given 20 hours of instruction and must pass written tests given by the transportation specialists and a drive test administered by the Department of Public Safety at the end of the workshop in order to be certified. The certification is valid for five years, at which time a driver must attend a Tuesday session at one of the workshops for re-certification.

Each school bus in the state is also inspected on an annual basis to make sure it is in good operable condition for the daily routes and also for activity trips. If any bus has a deficiency, it is reported to the section by a field specialist and the school must reply in writing when the proper repairs have been made. Each driver certification is also checked at this time along with a current physical which is required each year.

This past year, approximately 6,800 buses and driver certifications were checked by the transportation specialists. Transportation maps are required for all 611 districts on a biennial basis. Approximately half of the maps are sent in each year. The western half of the state on odd numbered years and the eastern half on even numbered years. The maps have the outline of the district plus all routes drawn, number of miles traveled, stops made, and children hauled, which is used in part to determine their transportation aid.

This section is also responsible for obtaining a price list for school bus bodies and chassis as required by the State Board of Education. This is a maximum price that a school district may pay for a school bus. These bodies and chassis must also meet all federal and state safety requirements. Close contact is maintained with these vendors to share pertinent information about upgrading safety standards of school buses.

After a school bus is purchased by a school district, a copy of the invoice is submitted to the section to make sure a district was not overcharged for the school bus.

The office personnel process all the information received from the school bus driver training workshops, inspections, accident reports, and verify certified drivers on the support personnel report. This information is dispensed in many different ways in safety reports, statistical reports, help in family estates, information to attorneys, oil companies, school districts, and is used as expert information and sometimes testimony in the courtroom.

This year, 4,500 school bus driver certificates along with their drive records will be processed. Six thousand, eight hundred school bus inspections will be put in the data bank along with 352 accident reports. This information is not only used by the State Department of Education, but also by legislators, members of the media, individual school districts, and several national safety organizations.

The transportation section helps schools to interpret the state law as well as State Board of Education regulations to get their most precious commodity, the children, to and from school as safely as possible.

Federal/State Programs

CHILD NUTRITION PROGRAMS DIVISION

This subdivision of the Federal/State Programs Division administers the federally funded Child Nutrition Programs. This office is organized into two units designated as School Programs and Non-School Programs. Each unit of the Child Nutrition Programs Division is composed of programs which give attention to specific areas as follows:

School Programs

National School Lunch Program: The objectives of this program are to make available to all students enrolled in public schools and institutions a lunch during a period designated as the lunch period, to provide nutritionally adequate meals that are acceptable to students, thus reducing plate waste, and to provide assistance to participants to ensure minimum meal requirements are met, as well as to ensure that all programs are accountable.

School Breakfast Program: The purposes of this program are to make breakfast available in schools for students who for various reasons come to school without an adequate breakfast and to increase the number of school breakfast programs by continuing to notify all nonbreakfast program schools to the availability of the program.

Special Milk Program: The purpose of this program is to encourage the consumption of fluid milk by children. Benefits are directed toward schools and institutions that do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966 and/or split-session kindergarten children who do not have access to any school meal service authorized under these Acts.

Nutrition Education and Training Program: The objectives of this program are to instruct teachers, students, and food service personnel in sound principles of nutrition education, to train food service personnel in the principles and practices of food service management, and to develop classroom materials and curricula.

Non-School Programs

Child Care Food Program: The objectives of this program are to provide nutritionally adequate meal services to needy children in public or private nonprofit institutions and private for profit institutions which receive Title XX compensation for at least 25 percent of the children enrolled, especially those located in economically needy areas, and to provide assistance to participants to ensure improvement of the overall accountability and quality of the Child Care Food Program.

Summer Food Service Program For Children: The purpose of this program is to make nutritious meals available to all preschool and school age children from needy areas, to encourage, where possible, other organized activities for children at the site locations, and to improve overall accountability and quality of the Summer Food Service Program for Children.

Special Milk Program: The intentions of this program are to ensure the availability of fluid milk to children, to reduce the price charged to children who pay for their milk, and to serve milk free to eligible children under U.S. Department of Agriculture guidelines.

SPECIAL EDUCATION SECTION

"Handicapped children" means those children properly evaluated as being mentally retarded, hard of hearing, deaf, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired, deaf-blind, multi-handicapped, or as having specific learning disabilities, who because of those impairments need special education and related services.

"Special education" means specially designed instruction, at no cost to the parent, to meet the unique needs of a handicapped child.

The Special Education Section assisted local schools in the provision of appropriate educational services for 65,626 handicapped students during the 1986-87 school year. This assistance included services such as: in-service; on-site reviews; technical assistance; review and recommendation of local district applications for P.L. 94-142 federal funds; review and recommendation of all special education transfers; review and recommendation of modified program requests; coordination of interagency special education related activities; processing, coordination and supervision of due process hearing and appeal reviews; review and recommendation of local school applications for homebound funding; review and recommendation of local school and state institution applications for P.L. 89-313 funding; coordination for registry and deaf-blind programming.

To aid in the timely dissemination of information, the Special Education Section developed the following publications for distribution:

Policies and Procedures Manual for Special Education in Oklahoma; Child Count Data: 1986-87; EHA-B Policies and *Procedures Booklet.*

In the area of federal funds and related activities, the section processed and made final recommendations for a total of 282 Education of the Handicapped Act - Part B (EHA-B) and 10 Preschool Incentive Project applications, and coordinated activities and funding procedures for five Title VI-C (Deaf-Blind) regional subgrants. The section provided inservice and technical assistance to auditors of all special education projects.

P.L. 89-313 federal funds provided financial assistance for programs to meet the special education needs of 1,446 handicapped children. These children were residents in one of the approved 11 state institutions or they had transferred from one of these institutions and were enrolled in a local education agency.

"Speech or language impaired" students continued to receive increased attention. The section emphasized awareness and management of school age language-learning disordered students. Technical assistance was intensified to help local school personnel establish criteria for identifying, evaluating, and serving students in appropriately designed programs.

Special services provided reimbursement to local schools in six areas of service during the 1986-87 school year.

Homebound: Approximately 2,651 children were provided academic instruction while they were unable to attend school due to illness.

Therapy: Reimbursement was made to local schools for 22 occupational or physical therapists.

Transportation: Approximately 4,219 handicapped students were provided unique transportation arrangements for 1986-87.

Deaf-Blind: Payments were made to schools in educating approximately 41 students.

Physically Handicapped: This area of reimbursement helped local schools to make special provisions in regular and special classrooms to accommodate approximately 484 physically handicapped students.

School-To-Home Telephone Systems: Served one student for the 1986-87 school year.

Also through special services, the section called on the resources of the American Printing House for the Blind to provide large-print books, braillers, talking books, recorders, stimulation kits, and other visual devices in educating legally blind students.

REGIONAL EDUCATION SERVICE CENTER

The State Department of Education sponsors 20 Regional Education Service Centers throughout Oklahoma, thus making services available to all areas of the state.

RESCs offer the services mandated by law and the State Board of Education. Professional assistance is provided to local school districts aimed toward the improvement of instruction for students.

During the 1986-87 school year the RESCs provided basic services which included, but were not limited to the following:

Student Appraisal

The Regional Education Service Centers have the responsibility for coordinating educational screening as mandated in the Prescriptive Teaching Act of 1974.

The total number of students grades K-2 screened was 136,283.

The RESCs also provided individual diagnostic and evaluative services for students exhibiting an exceptionality in one or more areas.

The total number of students grades K-12 individually evaluated by the RESCs as potentially handicapped was 18,813.

The number of students grades K-12 individually evaluated for gifted was 4,081.

Media

All RESCs maintained a media library for the purpose of providing a lending service. Media catalogs were available at schools throughout each region. Loan periods generally ranged from two weeks to one month.

Each RESC provided teachers with materials for meeting the needs of exceptional children. Specially designed materials were provided on a prescriptive basis to classroom teachers working with students with an identified exceptionality. Media materials were available to all regional teachers after the needs of exceptional children were met.

The total number of teachers using media from the centers was 5,551.

Individualized Learning Plans

For students identified as exceptional, RESCs provided prescriptive teaching plans for classroom teachers.

The number of individualized learning plans written for students referred for possible special education placement was 18,486.

The number of individualized learning plans written for students referred for possible gifted placement was 3,946.

Centers also provided consultations for educators and parents working with or having exceptional children.

The total number of individual consultations with teachers and administrators was 36,044.

Staff Development

The RESCs assisted in organizing and presenting workshops, conferences, institutes, and other inservice programs for teachers, administrators, parents, and others working with students who have special needs.

These programs emphasized the awareness, utilization, and adoption of appropriate materials, learning theories, research findings, and other educational topics.

The total number of group inservice sessions conducted was 622.

A close working relationship is maintained with teacher training institutions, making current and updated information readily available to students, and teachers continuing their education.

Three times each year the RESC staff participates in the administration of teacher competency evaluations.

Coordination of Educational Services

RESCs assist in the improvement of present services for students, provide leadership in expansion of education services, and in curriculum development.

Interagency meetings are provided by each RESC for facilitating expanded services to students.

At the governor's request, each center coordinates two meetings a year which provides an opportunity for agencies to exchange information regarding services available, establishes a contact person, and assists in eliminating the duplication of services.

ADULT EDUCATION/ GED/COMMUNITY EDUCATION

The Adult Basic Education program provides for the teaching of basic courses to all adults who have not achieved the ninth grade level in education. People attending these classes must be 18 years of age, except in special cases, and must not be attending public schools.

The Adult Basic Education program in Oklahoma is designed to meet the individual needs of adults. Through this program, adults are provided opportunity to acquire knowledge and become proficient in using skills that will assist them in becoming better citizens, better employees, better homemakers and more productive individuals.

The Adult Basic Education program deals with the total concept of continued learning for personal effectiveness and good living attitudes, knowledge, and skills. Adult Basic Education is administered by the State Department of Education through 40 adult learning centers. A learning center is basically an area (building, room or rooms) where facilities, materials, personnel, and students come together to service the educational needs of individual adults on a scheduled or unscheduled basis. It may be used by one adult for enrichment, another for reinforcement and another for remediation. The learning center is for all adults 18 years and older who want and need educational improvement.

Through the Adult and Community Education Section, the State Department of Education issues certificates of high school equivalency to adults who make application for the GED test through an adult learning center. Applicants must be 18 years of age or older and not attending public schools. A 17-year-old may take the test with permission from his/her legal guardian and the high school principal or superintendent of the school in the district in which the student lives.

In this program during 1986 there were 6,733 certificates of equivalency issued to people who had not received a high school diploma. Since 1965, the beginning of the program, there have been 102,689 high school equivalency certificates issued in the State of Oklahoma through the Adult Basic Education program. The program is funded 90 percent by the federal government and 10 percent by the state.

The Adult and Community Education Section also administers the Community Education program.

Community education is based on the philosophy that all citizens have an inherent right to participate in their community to the maximum of their ability and have the opportunity for self-fulfillment during all stages of life.

The Oklahoma State Department of Education considers the community education program an excellent opportunity to foster greater efforts at meeting the special needs of many target groups in Oklahoma and an opportunity for the schools and communities to build a closer liaison for mutual benefits.

The FY-87 appropriation of $396,000 funded 56 programs: 47 continuations and nine new programs. These funded LEAs will serve in excess of 133,000 participants in the coming year.

The community education concept was sanctioned as an official part of the State Department of Education in October, 1977 with the employment of the first state coordinator of community education with federal funds.

Community education funds provide for the improvement and expansion of existing K-12 programs. Community education in Oklahoma provides the incentive for some communities to provide a climate for lifelong learning. A major benefit is that of weaving together the facets of a student's environment—the home, the school and the community.

COMPENSATORY EDUCATION SECTION

The Compensatory Education Section, more commonly called the Chapter 1 section, administers federally funded programs under Chapter 1 of the Education Consolidation and Improvement Act of 1981. The major goal of the Compensatory

Education Section is to assist local education agencies to design programs resulting in an improved achievement level of children residing in and attending eligible Chapter 1 attendance area schools, of neglected and delinquent children residing in state institutions, of children of migrant farm workers and of handicapped children in the state schools for the handicapped.

In fiscal year 1987, 593 of the state's 613 school districts implemented programs under the direction of this section. Chapter 1 projects are planned and implemented on the basis of identified pupil needs and revealed by an annual needs assessment. Project components generally consist of such academic programs as remedial reading, remedial math and language arts.

The state education agency receives an allocation for each of the Chapter 1 program needs such as migrant, handicapped, neglected and delinquent, etc. The allocation is broken down by county subtotals by the U.S. Department of Education.

The State Board of Education developed regulations governing the procedures for making sub-county allocations. For fiscal year 1987 Oklahoma's total Chapter 1 grant award was $37,388,626. This total grant award was distributed to local school districts in the following amounts: $1,509,814 to schools implementing programs for children of migrant farm workers; $722,188 for programs assisting institutionalized handicapped children; $168,897 for programs assisting neglected or delinquent children in state institutions; $34,645,546 for programs assisting children attending eligible Chapter 1 attendance area schools; and $342,181 for state administration.

In seeking to achieve its goal, the Compensatory Education Section assists school administrators with the process of identifying needs of eligible children and designing programs to meet those needs. The state education agency staff reviews and approves the local education agencies' applications, assists in program evaluation and monitors select programs in an effort to bring about positive changes in compensatory education programs. Monitoring is done on-site which enables the Chapter 1 staff to review programs in operation, identify potential compliance problems and gives the state education agency an opportunity to provide technical assistance in correcting problems.

CHAPTER 2

Chapter 2 of the Education Consolidation and Improvement Act was enacted as part of Subtitle D of Title V of the Omnibus Budget Reconciliation Act of 1981 authorized by P.L. 97-35. This Act folded prior categorical funded programs into a block grant. The education block grant concept is intended to provide flexibility for local school districts to make program and funding decisions that meet local school elementary and secondary educational needs and priorities. The Act includes provisions for the participation of children enrolled in private nonprofit schools.

The Act provides that the funds used locally be based on a districtwide assessment of instructional needs and determined by a consultation committee whose composition and responsibilities are defined by P.L. 97-35, Section 566 (a)(4). Local consultation is not an option.

The Governor recommended to the State Board of Education a 22-member Chapter 2 State Advisory Committee that is active in advising the SDE on the formula for distributing Chapter 2 funds to LEAs and on other phases of Chapter 2 implementation, evaluation and administration.

The Educational Consolidation and Improvement Act has three basic components: Chapter 1 which continues the prior ESEA Title I; Chapter 3, General Provisions, explains the various administrative and accounting requirements of the Act; and Chapter 2 which consolidates 28 plus previously funded categorical programs into a single formula grant to states, and several other programs into a secretary's discretionary fund.

Each state education agency receives an annual allotment from the U.S. Department of Education based upon the annual appropriations by Congress and the number of students aged 5-17 in the state as determined by the 1980 census.

Funds allotted to the state for local educational agencies (LEAs) are distributed based on an approved formula in the form of an allocation. That formula distributes: 80 percent of the LEA's allocation based on average daily membership (ADM); 5 percent on the basis of the pro rata number of special education students served; 5 percent on the basis of the pro rata number of students from low-income families (LIF) students served; 5 percent on the basis of school size in an inverse relationship of all school districts in the state; and 5 percent based on student sparsity.

Education program purposes included in the consolidation of Chapter 2 are given in Subchapters A, B, and C.

Subchapter A: Basic Skills Development

Use of funds under this subchapter shall be to develop and coordinate programs designed to improve elementary and secondary school instruction in the basic skills of *reading, mathematics, language arts—written and oral communications may include the sciences and social studies. This expanded definition includes that projected by both HB 1816 and P.L. 97-35.*

Basic skills programs include five basic steps:

- Diagnostic assessment to identify the needs;
- The establishment of learning goals and objectives;
- To the extent practicable, preservice and inservice training and development programs for administrators and other personnel;
- Activities designed to enlist the support and participation of parents; and
- Procedures for testing students and for evaluation of the effectiveness of programs maintaining a continuity of efforts for individual children.

Subchapter B: Educational Improvement and Support Services

Programs and projects authorized under this subchapter include:

- The acquisition and utilization of school library resources;
- The development of programs designed to improve local educational practices in elementary and secondary schools, and particularly activities designed to address educational problems such as the education of children with special needs—educationally deprived children, gifted and talented; or children with special education needs;
- Programs designed to assist LEAs, upon request, to more effectively address educational problems caused by the isolation or concentration of minority group children;
- Comprehensive guidance, counseling and testing programs;
- Programs and projects to improve the planning, management and implementation of programs, including fiscal management;
- Programs and projects to assist in teacher training and inservice staff development; and
- Programs and projects to assist LEAs to meet the needs of children in schools undergoing desegregation.

Subchapter C: Special Projects

Programs and projects authorized under special projects include:

- Preparation of students to use metric weights and measurements;
- Emphasis on arts-in-education as an integral part of the curriculum;
- In-school partnership programs in which the parents of school-age children participate to enhance the education and personal development of the children and preschool partnership programs in which the schools work with parents of preschool children in cooperation with programs funded under the Head Start-Follow Through Act;
- Consumer education;
- Preparation for employment, the relationship between basic academic skill development and work experience, and coordination with youth employment programs carried out under the Comprehensive Employment and Training Act;
- Career education;
- Environmental education, health education, education about legal institutions and the American system of law and its underlying principles, and studies on population and the effects of population changes;
- Academic and vocational education of juvenile delinquents, youth offenders, and adult criminal offenders; and
- Programs to introduce disadvantaged secondary school students to the possibilities of careers in the biomedical and medical sciences, and to encourage, motivate, and assist them in the pursuit of such careers.

Participation in Chapter 2 is voluntary. Many districts have steadily accepted this source of supplemental funds beginning in the 1982-83 school year through the present. Reports from participating LEAs indicate approximately 97 percent of the students in Oklahoma have the potential to benefit from Chapter 2 services on an annual basis.

Dissemination about Chapter 2 sponsored activities is accomplished through information shared at SDE initiated workshops, through articles in the "Oklahoma Educator," "Superintendent's Newsletter" and Chapter 2's association with professional, educational and community service organizations, and their lines of printed communications. Chapter 2 co-sponsors an annual Education Fair that disseminates exemplary program practices found in Oklahoma's public and private nonprofit schools. Chapter 2 awards a $1,000 Dissemination of Education Information subgrant to LEAs for each exemplary program selected to appear on the Education Fair program. Subgrant funds help offset expenses incurred while disseminating exemplary program practices statewide. Other co-sponsors include: Cooperative Council for Oklahoma School Administration (CCOSA), Oklahoma Education Association (OEA), Oklahoma State School Boards Association (OSSBA), and the Oklahoma Curriculum Improvement Commission (OCIC). A minimum of 10 percent of the participating LEA programs are monitored by the on-site method annually. An annual summary of Chapter 2 state education agency administration and implementation and of LEA program effectiveness is collected, compiled, published and widely distributed.

LIBRARY RESOURCES

The Library Resources Section has five professional library media specialists who are available for technical assistance to local education agencies in all areas of library media services. Assistance is frequently requested in the following areas: facility design, materials and equipment selection, new technologies for library management, long-range planning, utilization of library resources by teachers and teaching information skills.

Since 1978, the state Legislature has appropriated funds for competitive grants for schools to develop new library media centers or improve existing ones. The 1986-87 appropriation was for $2,615,114. This funded 39 new projects and continued 181 others for a total of 220 projects.

Since the Library Improvement Program began in 1978, $13,388,718 has been appropriated for 474 projects. Evaluation of current and past Library Media Improvement grant programs shows significant gains in student achievement, amount of reading, and use of resources by teachers in instruction.

The Library Resources Section conducted inservice workshops for teachers, library media specialists, and administrators in districts, in addition to a two-day workshop that attracted over 1,200 participants. These workshops covered all areas of library media services.

Numerous publications were developed to assist library media specialists in selecting materials, give instruction, and plan improvements in library services. New publications include an "Information Skills" chart to assist schools in planning for instruction of these skills. These skills are correlated with the Learner Outcomes for the major curriculum areas.

INDIAN EDUCATION SECTION

The position of the Indian Education Section of the State Department of Education is that of educator, counselor, leader, advocate and friend of the Indian student in Oklahoma. It verifies the degree of Indian blood necessary for enrollment in specific programs, maintains financial records of programs being implemented in the schools and provides technical assistance to the schools and the Indian parent committees. It established links of communication, keeping them open to maximize the involvement by parents, tribal leaders and ultimately, the students themselves, in their own education.

The Johnson-O'Malley program for the Creek and Osage Nations and the Northeast Eight Tribes is administered through the Indian Education Section, whose funds are provided by a contract with the Bureau of Indian Affairs. Eligible students must be verified as one-fourth degree Indian blood, or more.

In the implementation of P.L. 92-318, Title IV-A, we act as liaison and provide technical assistance to schools, parent committees, provide inservice training for funded staff and work in the area of curriculum development. Title IV-A is for students of Indian descent.

The Indian Education Section is involved annually with many training programs such as student computer institute, student leadership, paraprofessional staff training, student art institute, professional/paraprofessional counselor training, and Indian Parent Committee training. Each year we conduct area-wide conferences in the interpretation of federal regulations, designing of components to be funded, developing applications and working with schools and Indian parents in cost effective, meaningful academic experiences for Indian students.

The Indian Education Section's effort is accomplished through a director, an executive secretary, a coordinator of accounting and reporting, and five field-based program facilitators, who work in areas with a high concentration of Indian students, serving 318 school districts in 54 counties, for a total of 69,789 students of Indian descent.

EESA TITLE II

On Aug. 11, 1984, the President signed into law the Education for Economic Security Act (P.L. 98-377), 98 Stat. 1267, 20 USC 3901.

Title II of the Education for Economic Security Act (EESA) provides financial assistance to states to improve the skills of teachers and instruction in mathematics, science, computer learning, and foreign languages; and to increase the access of all students to such instruction.

The primary focus of Title II is upon training, retraining, and inservice training for elementary and secondary teachers of mathematics and science. If all training, retraining, and inservice training needs of the district's math and science teachers have been met, then the district may request a waiver for use of the funds for mathematics and/or science instructional materials and equipment, computer learning and instruction (limited to 30 percent of allocation), and/or foreign languages (limited to 15 percent of allocation).

The initial grant award of program funds for elementary-secondary education was received in late May, 1985, and the program was implemented June 1, 1985.

The state's allocation is based on the number of children, aged 5 to 17 inclusive, in the state relative to the number of those children in all states based on the most recent satisfactory data available from the Bureau of the Census.

To receive initial funds, the state submitted a state plan in accord with program guidelines. The state plan, developed cooperatively by the State Department of Education, State Department of Vocational-Technical Education, State Regents for Higher Education, and the governor's office, was submitted by the governor's office.

The statewide assessment of need was completed and submitted in summary form to the secretary, U.S. Department of Education, along with an updated, revised state plan to fulfill requirements to receive second-year funds.

Program regulations specify that 70 percent of the state's allocation is allocated to the state educational agency (SEA) for elementary-secondary education. Thirty percent of the state's allocation goes to the Regents for Higher Education for use in institutions for higher education.

Regulations specify how the elementary-secondary funds are to be used. Seventy percent of the elementary-secondary funds are allocated to local school districts on a formula basis. Fifty percent of the district's allocation is distributed according to the relative number of children enrolled in public and private schools within the district and, 50 percent is distributed according to the same proportion as funds under Chapter 1 of the Education Consolidation and Improvement Act (ECIA) of 1981 are distributed to local educational agencies (LEAs). Twenty percent of the state's allocation of elementary and secondary funds is used to fund exemplary/demonstration projects and/or dissemination of information about exemplary/demonstration projects to LEAs throughout the state. The SEA must use at least 5 percent of the elementary-secondary funds for technical assistance to LEAs and may use up to 5 percent of program funds for the required state assessment of need and program administration.

Each district submitting an initial application for the allocated funds must complete an assessment of need relative to the eligible content areas and budget funds to address identified needs.

During the program's initial year, the 1985-86 school year, needs assessment data was submitted by 281 school districts and 258 districts applied for their allocation of funds. Most of the districts which did not apply are small districts with very small allocations. Districts submitting needs assessment data represented 74 percent of the state's student average daily membership (ADM) while districts making application for their allocation of funds represented 72 percent of the state's student ADM. Thirteen exemplary/demonstration projects were funded.

Funds for the participation of private school children and teachers are provided through participating local public school district allocations. Area vocational-technical schools have a per pupil allocation calculated for students enrolled in vocational-technical education from participating public school districts.

Second-year applicants for program funds completed a brief evaluation report on the use of first-year funds and budgeted funds to address needs identified in the state assessment of need. Needs were identified in all eligible content areas for additional training, retraining, inservice training, and instructional materials and equipment.

In the program's second year (the 1986-87 school year), 201 districts completed applications for allocations of funds. Nine exemplary/demonstration/dissemination of information projects were funded.

Program funding for the second year was reduced to 43 percent of the first year's amount. Third year funding will be back up to 80 percent of the first year's amount for the state.

MULTICULTURAL EQUITY PROGRAMS

The overall goal of Multicultural Equity Programs is to help all students reach their potential. Educational options should not be limited by sex, age, ethnicity, native language, socio-economic level or handicapping condition. Multicultural Equity Programs provide Oklahoma educators with appropriate technical assistance, teacher training activities, and resources to promote equal education opportunity in the state.

Multicultural Equity Programs consist of the following four federally funded projects: Bilingual Education (Title VII ESEA) and National Origin (Title IV-CRA), administered by the Bilingual Education and National Origin Section; Race Desegregation (Title IV-CRA), administered by the Human Relations Section; and Sex Desegregation (Title IV-CRA), administered by the Educational Equity Section. The following is a summary of purposes and services available of each of these four individual projects.

Bilingual Education/National Origin

Bilingual Education, Title VII of the Elementary and Secondary Education Act, is a competitive direct grant program administered by the Office of Bilingual Education and Minority Languages Affairs, U.S. Department of Education. Grants are awarded to local educational agencies, institutions of higher education, state educational agencies, and other non-profit organizations for instructional programs for limited English proficient (LEP) students and for training programs for teachers and parents of LEP students.

During the 1986-87 school year, 25 Title VII projects were funded in Oklahoma with a total allocation of $2,906,860. These projects represented Asian, Hispanic, Native American and other language groups serving more than 3,000 students from preschool through 12th grade, with Native American programs comprising a majority.

The goals of the Bilingual Education Project are to collect, analyze and report data on Oklahoma's population of LEP persons and the educational services provided or available to those persons as well as provide technical assistance for activities designed to improve the effectiveness of programs for LEP persons in the state. This assistance is provided upon request and based on needs identified by Title VII grantees as central to meeting project goals. Services are also targeted to build capacity within the SDE as well as Title VII projects and other organizations serving LEP persons.

Services available through the Bilingual Education Project include: technical assistance to Title VII projects in such areas as data collection, language assessment, program implementation, staff training, materials development, capacity building, and program evaluation, and others identified by the section's Needs Assessment Survey. The section coordinates services of technical assistance and evaluation with support service centers across the nation to assist Title VII and non-Title VII entities serving LEP persons. Additional services provided are acquisition and distribution (on loan basis) of appropriate supplementary instructional and resource materials, program development assistance to districts seeking Title VII funds, and other issues pertaining to bilingual education and English as a second language.

The National Origin Project provides technical assistance and training to districts with language minority students to ensure that students whose dominant or primary language is not English are not limited in their participation in educational programs by a lack of proficiency in English. Assistance is available to any requesting school district with limited English proficient students.

Services available through the National Origin Project include technical assistance to school districts and appropriate nonprofit organizations in such areas as data collection, identification, and placement of LEP persons; identification and awareness of applicable federal and state guidelines/procedures in meeting the needs of these persons; staff training; implementation of district plans relating to language minority students; identification, revision and development of appropriate instructional materials for LEP persons; and language assessment. Also included are coordination of services to districts through federally funded technical assistance, evaluation, and service centers across the nation; acquisition and distribution (on loan basis) of appropriate supplementary instructional and resource materials; and collection and dissemination of information on bilingual education and English as a second language issues.

During the 1986-87 school year, this project provided inservice/awareness programs to more than 2,000 educators representing over 200 local educational agencies. Participants included administrators, counselors, teachers and aides, and represented over 20 language groups. The project also provided information on bilingual education and English as a second language to more than 41,000 state school personnel.

The Bilingual Education/National Origin Section will continue efforts with other SDE sections and appropriate agencies that work with LEP persons in their respective fields.

SCHOOL PLANT SERVICES

The School Plant Services Section administers a number of federal and state programs. Most are facility related except for the Impact Aid Program and the energy programs.

P.L. 81-815 School Construction, major disaster programs under P.L. 81-815 and P.L. 81-874, energy grants to schools and building accessibility to the handicapped under Section 504 of P.L. 93-112, make up the federal programs.

Plan review, school inventory, five-year capital improvement planning, mobile classrooms, and technical assistance to schools in any area pertaining to maintenance and operations of buildings or grounds is offered under state programs.

Impact Aid

This section provides assistance in completion and review of applications for funding and act as a clearinghouse for final processing and transmittal to Washington, D.C. Funds under this program are paid directly to eligible districts by the U.S. Department of Education in recognition of the impact certain activities of the federal government have on local education agencies.

In FY 1987, 335 school districts, or 54.65 percent of Oklahoma's school districts, received funding under P.L. 81-874, Impact Aid.

In school year 1986-87 Oklahoma school districts received $29,780,948.78 for Impact Aid.

Districts claimed 17,928 "A" category students and 33,652 "B" category students. Fifty-four districts are classified as "A" only; 34 as "B" only; and 225 as "A" and "B". There are 20 districts that are section 2 only with an additional 34 that are section 2 and 3. Of the 335 applicant districts, 62 are super "A" and 19 super "B".

Approximately the same number of students in FY 1988 and schools—if appropriations are the same—should receive between $15 and $16 million.

Major Disaster Assistance

Under this act, assistance is available to local education agencies that have suffered a natural disaster. In areas designated as disasters by both the governor and the U.S. President, funds may be available to repair or replace damaged buildings and contents. The section makes on-site visits, appraises damages, and assists in completion of applications for funding, investigates all disasters, reviews the situation, and contacts the appropriate sections of the State Department of Education for assistance. More than 25 disasters were investigated this year.

School Construction Assistance (P.L. 81-815)

Although nationwide funding is negligible and eligibility is difficult to establish, the U.S. Congress provides assistance to LEA's for building minimum school facilities, in recognition of the impact of certain federal activities. The section provides on-site review of affected LEA's, substantiates their needs, and assists in completing the application for funding.

Maintenance and Operations Training (MOPS)

Through hands-on learning experience and instruction from the MOPS Training Manual, personal and technical assistance is provided to LEA administrators, and maintenance and operations personnel to enable them to provide a more effective and attractive learning environment in their schools.

During FY 87, eight workshops were conducted, training 510 maintenance and custodial personnel.

In addition to the eight workshops, one statewide workshop was conducted for school plant managers, with 150 school plant managers and administrators attending.

School Plan Review

There were 150 plans reviewed for FY 87. This included 103 new construction projects and 63 remodel/renovation projects with an estimated cost of $58 million. Of the new construction projects, 82 were student-related facilities (i.e., classrooms, gymnasiums, physical education, cafeteria, etc.).

The average cost of school construction projects was approximately $41/sq. ft. for elementary standard construction; $27/sq. ft. for elementary pre-engineered construction; $44/sq. ft. for junior high/middle school standard construction; $37/sq. ft. for junior high/middle school pre-engineered construction; $39/sq. ft. for high school standard construction; and $30/sq. ft. for high school pre-engineered construction.

Building Accessibility

To enable LEA's to develop school facilities and programs which are accessible to the physically handicapped, guidance, literature, and on-site technical assistance is provided upon request.

Assistance in the evaluation process for supplemental construction funds is also provided.

School Facilities Inventory Study

To aid in program development and facility planning for schools at both the state and local level, the section maintains a computerized inventory of the school facilities across the state. Information kept on file for every school includes site size and amenities, building materials and condition, as well as the characteristics of individual facilities within each school building.

The update of the school facilities inventory is an ongoing process. In most cases much of the required information is gathered from documents submitted to the Department through the plan review process.

Common Schools Capital Improvement

To assure the development and continuance of school facilities suited to the needs of education, state law directs each LEA to develop a five-year capital improvement plan and the State Department of Education to develop a state master plan. The section provides guidance and assistance to LEA's in developing their plans.

Mobile Classrooms

To minimize the disruption of educational programs caused by a natural disaster such as fire, wind or flood, a limited number of mobile classrooms that can be used by affected LEA's for specified periods of time are available. On-site technical assistance is provided.

Energy Grants

As a part of a U.S. Department of Energy program known as the Schools and Hospitals Grants Program, the section provides assistance and serves as clearinghouse for applications for engineering studies and architectural projects in individual school buildings which will result in energy conservation.

Technical Consultation

Section staff, which includes educators, architects, engineers, and specialists in landscaping and school operations and maintenance, are available to provide assistance to districts on-site in any of their specialty areas upon written request.
